Special Dispatches to the New-York Times.

WASHINGTON, Sunday, Nov. 5.

THE FORTHCOMING REPORTS.

The Secretaries and heads of the several departments of the government are rapidly preparing their reports of the operations of the different branches of the government for the past year. They must necessarily prove more than usually interesting in their summing up of results at the close of the war and the reestablishment of peace. The Postmaster-General's report will be one of great interest, in view of the reorganization of the Southern mail service, and Gov. DENNISON will bring his report down to a later period than usual, in order to give an exhibit of the condition of the Southern mail service at the present time. The revenue of the postal service in the loyal States for the past year was larger than that of all the States before the war. Gen. GRANT's report, which has been in the hands of the Secretary of War for some days, has been recalled by the General.

MESSENGER FROM NORTH CAROLINA.

Gov. HOLDEN has sent a special commissioner here in the person of R. S. BADGER, Jr., son of Ex-Senator BADGER, of North Carolina, for what purpose has not transpired.

WIRZ MAKES FURTHER DENIALS.

WIRZ denies that he is the person who was convicted of embezzlement in Switzerland, and divorced from his wife, as stated in some of the newspapers. The person referred to is a cousin of the prisoner WIRZ, so the latter says.

ERRORS CORRECTED.

The President has not issued an order suspending the operations of the Freedman's Bureau in the State of Alabama, as stated in some of the New-York journals. Gen. SWAYNE is still in charge of the bureau in that State with no curtailment of the power originally conferred on him by Gen. HOWARD.

COELECTOR APPOINTED.

RUFUS LEIGHTON has been appointed Collector of Customs of the District of Puget Sound, vice F. A. WILSON.

THE PACIFIC SQUADRON.

The Pacific squadron will consist of the following-named vessels: *Powhatan*, twenty-two guns; *Shamokin*, ten guns; *Tuscarora*, ten guns; *Vanderbilt*, seventeen guns; *Monadnock*, four guns. Total, sixty-three guns. The *Powhatan*, a first-rate frigate, so-called, will be the flag-ship; the *Shamokin*, an iron double-ender gunboat, will coast off Brazil; the *Tuscarora*, a wooden gunboat of the *Kearsarge* class, will be in commission in the Pacific, and the *Vanderbilt*, a large wooden ship, and the *Monadnock*, a double-turreted iron-clad, carrying 15-inch guns, will lay up in the harbor of San Francisco.

REVENUE RECEIPTS.

The receipts from internal revenue yesterday amounted to one million five hundred and twenty-five thousand five hundred and thirty-nine dollars and twenty-eight cents.

SENSATION SPOILED.

The statement of a New-York paper that the War Department has stopped the sale of horses, wagons and other material of war in the Quartermaster's Department, for the purpose of putting them in service, is, we learn, wholly untrue. This false statement is one of the same character as the sensation paragraphs in that paper a few days ago, announcing that the Navy Department has ordered all the government vessels into commission, &c.; and again, that the iron-clads would rendezvous in Hampton Roads with warlike intent; both of which statements are false.

REVENUE DECISION.

Commissioner ROLLINS, of the Internal Revenue, yesterday promulgated the following decision concerning the liability of the manufacturers and producers of articles especially exempt from duty under section ninety-six:

"The act of July 1862, declared that certain articles enumerated in the last proviso but one of the 75th section should not be regarded as manufactures within the meaning of the act. The producers of these articles, therefore, were not required to take a manufacturers license. They were, however, required to take license as dealers, according to their annual sales. By the 96th section of the act of June 30, 1864, many of the articles not regarded as manufactures within the meaning of the former act, are exempt from duty, while others are taxable as manufactures. The same act, section 79, paragraph 31, defines a manufacturer to be one person, firm or corporation, who shall manufacture by hand or machinery, any goods, wares, or merchandise, exceeding annually the sum of $1,000. Any person, firm or corporation, therefore, who shall manufacture, by machinery, any of the articles exempted from license tax by the 96th section are to be regarded as manufacturers, and are liable to take a manufacturers license. The articles exempted by the 96th section are as follows: Newspapers, boards, shingles, laths and other lumber, staves, hoops, shooks, headings and timber partially wrought and unfinished for chairs, tubs, pails, hubs, spokes, felloes, snaths, lasts, shovel and fork handles, matchwood, umbrella-stretchers, alcohol made or manufactured of spirits or materials upon which the duties imposed by law shall have been paid; bone-dust, plaster or gypsum, malt, burning fluid, printers' ink, flax prepared for textile or felting purposes, until actually woven; marble and slate, or other building stones in block; wrought and unwrought charcoal, coke; all flour and meal made from grain, bread and breadstuffs, butter, cheese, concentrated milk, cider and cider vinegar, and sugar or molasses made from other articles than sugar-cane, parafine, whale and fish oil; value of the bullion used in the manufacture of silverware, silver bullion, rolled or prepared for platers' use exclusively, and cut tapes and small wares used in the manufacture of hoop-skirts, and all manufactures, when the increased value does not exceed five per centum of the cost or value of the materials from which they are made or produced."

## AFFARS IN JAMAICA.

### Origin of the Recent Disturbances—Massacre, Fighting and Hanging—The Rebellion Effectually Put Down.

*Correspondence of the New-York Times.*

HAVANA, Tuesday, Oct. 31, 1865.

The scene of the disturbances in Jamaica is around Morante Bay, which is the part of the island nearest to Hayti, and is in the District of St. Thomas. Lately, previous to the dreadful slaughter committed by the furious mob, there had been a dispute between some sailors of the navy and the police; but this was promptly stopped by the government. The succeeding events are of a more serious character, and are authoritatively declared to be a decided and marked rebellion.

The first alarm was given by a letter, dated Oct. 11, read in the Commercial Exchange of Kingston, from Hon. W. P. GEORGES, of Morante Bay, announcing that the writer was wounded by two bullets in his legs, and that Hon. Baron VON KETELHODT, the Magistrate of St. Thomas East, Dr. GERARD, C. PRICE, S. COOK and Rev. Mr. HERSCHELL had been killed. The Baron is afterward mentioned as arriving in Kingston on a steamer; so he escaped at least with his life.

The beginning of the outbreak is thus described: On the 7th it was said that the people were greatly enraged, especially at an arrest. Sunday passed, and on Monday the magistrates issued warrants for the arrest of twenty persons who had figured on Saturday in the rescue; but the police were overpowered and secured with their own handcuffs, being held as hostages. On the next day three hundred men, armed with swords, left Dumfries and appeared in Stony Gut, where they held a secret meeting in the Baptist Chapel. Previous meetings had been held the night before, at the house of a man named GRANT, called by the insurgents Capt. GRANT.

The magistrate wrote at once to the Governor, at Spanish Town, and also to Bath for a company of volunteers. The volunteers arrived on Wednesday, which was the day for the sessions. All was tranquil till 3 o'clock, and the magistrates were about to retire for refreshment, when a cry of women was heard: "Here the people are coming." From the windows of the Court-house could be perceived a furious mob of four or five hundred persons rushing down the main street to the Police Station. In they rushed, seized the guns, swords, and powder, and triumphantly hurried on to the Court-house. The local magistrate caught up the "Riot Act," which he read amidst a storm of stones and bricks; the volunteers were ordered to fire, and when the smoke rolled away several of the rioters were seen dead or wounded.

Then came a momentary pause, when the mob rushed furiously on the handful of volunteers who fought bravely. Over the railing climed the assailants and an obstinate effort was made to break open the door. In the meantime the volunteers had succeeded in retreating into the building and set to work to barricade it, trying also to save the portrait of Sir CHARLES METCALFE from the conflagration, with which the edifice and school-house were threatened. Every soldier who looked out of the windows was received with bullets, which he returned. The school-house was soon in flames, but the wind for a time saved the Court-house. Two of the magistrates who tried to escape through a window, were at once killed by the beseigers. In this confusion each member of the court tried to escape as he could. All took refuge in the fort when it was discovered that the few volunteers who defended it had been over-come. The roof was now on fire. At the request of Rev. Mr. HERSCHEL a prayer was offered up. Scarcely was it concluded when the bullets came dashing through the windows, wounding the stipendiary magistrate, the Hon. Mr. GEORGES, and child of of the inspector.

Down came the roof, and to leave the place was imperative. Mr. M'COMMARK was dashed to pieces against a cannon lying on the steps. Another rushed out with a sword, whilst the mob shouted, "Now we have the Baron, kill him! kill him!" and loud shouts announced their satisfied vengeance. Others perished, and after having mutilated the Inspector, they were going to kill his child, but some women succeeded in saving it. The tongue of the clergyman was cut out, and the Baron's fingers were similarly treated. The volunteers fought well and dearly sold their lives. Not New Zealanders or Indians could have shown more cruel ferocity than the insurgents.

The storm of riot then rushed on to the District of the Valley, and news of the atrocities there committed soon arrived. Great numbers of refugees had arrived at Kingston.

In Hordley the Government House was attacked. In it a number of women and children had sought a refuge. The inhabitants at once armed themselves with revolvers and other weapons, boldly withstood the rioters, and killing some, had succeeded in holding the others at bay. From that locality the following dispatch was received by the Governor: "The rebellion increases. The Court-house is in flames. The women are in the Government-house. Help—troops. A gunboat can lie off Holland Bay. Do not lose time."

Troops were at once sent to the scene of confusion, and reinforcements as rapidly as possible, whilst the Governor hurried to the spot. Three hundred soldiers of the Sixth Royals arrived at Kingston from Newcastle, whilst the inhabitants of that place were being rapidly enrolled as volunteers, a troop of volvolunteer cavalry having already left for Rock Fort. As the *Wolverine* steamed out of Morante Bay, it met the *Ardent*, from Nassau, and directed her to proceed at once to Barbadoes for troops.

Forty of the insurgents have already been hanged, and so has the policeman who favored the escape of the rebel leader, PAUL BOYLE. This latter has surprised most who knew him, for he was always considered as pacific and jovial in his character. Of another leader, GRANT, it is also said he was always very sensible and one of the supporters of the acts of the local committee of which he was a member.

Gen. O'CONNOR writes that Capt. LUKE marched upon Port Morante, expecting to find the rebels in force, but found no opposition; a gunboat, however, found a mob of 800, mostly women, employed in setting fire to the house of Mr. DUFFERS; some 32-pounders scattered them. On the 5th Capt. LUKE was ordered to Bath, and with the detachment there to proceed to Hordley Hall and Golden Grove, to protect the women and children above-mentioned. The distance from Port Morante to Bath is seven miles, and thence to Golden Grove five; after caring for the safety of the women and children, to proceed by the coast to Port Morante. Among the clergymen murdered is Rev. Mr. FOOTE, a venerable and excellent man.

As the Governor, Attorney-General and other officials were about to leave for where their presence was required, the *Wolverine* entered the bay having on board 21 prisoners, but as martial-law had been declared whence they came, they were ordered back to be tried there. The whole of Surry County except Kingston has been placed under that law. SARA.

### Rather Novel Mode of Disposing of Prisoners of War.

BOSTON, Sunday, Nov. 5.

The bark *Katherine Maude*, which arrived today at this port, brings advices from Buenos Ayres to Sept. 23, eleven days later.

The war between the allied powers and Paraguay still continued. The former had recently gained an important victory, having captured the town of Uruguayna and 5,000 Paraguayan prisoners, after a siege of six weeks. The prisoners were summarily disposed of by being drafted into the allied army to fight against their own countrymen. The victory caused great rejoicing at Buenos Ayres.

### TENNESSEE.

#### Pardon of John Overton—Grand Banquet at Nashville.

NASHVILLE, Saturday, Nov. 4.

FISKE has gone in person to Washington to investigate, and Mr. OVERTON left for the same destination this evening.

### VIRGINIA.

#### Gov. Peirpoint and the People of Virginia on the National Debt—Letter from Mr. F. Conway.

RICHMOND, Wednesday, Oct. 25, 1865.

*To the Editor of the New York Times:*

It has been extensively given to the public that Gov. PEIRPOINT, in a late conversation with the Hon. FREEMAN CLARKE, Comptroller of the Currency, expressed an opinion to the effect that the people of the South would object to paying taxes for the redemption of the national debt.

The official position of Gov. PEIRPOINT, and the circumstances of the country rendering it sensitive on the subject, give greater importance to this expression of opinion, if made, (and it is sustained by affidavit,) than it would have in a different state of things.

I, therefore, feel called on to state thus publicly, after a residence as long in Richmond as that of Gov. PEIRPOINT, and after full and free intercourse, during the last Summer, with men in public and private life, from all parts of the South, both in Richmond and Washington, that I have heard no purpose or disposition expressed by them to resist, or in any manner seek to enable, at any time, this, or any part or kind, of their lawful obligations, as an integral portion of the people and nationality of the United States. If any such purpose or disposition exists, it must be confined to a very select circle of malcontents and conspirators who succeed, almost miraculously, in keeping their aims and even existence hidden from those around them. But it is my opinion that no such purpose or disposition exists, and I give the opinion to the public for what it may be worth, trusting I shall not be deemed obtrusive or impertinent in so doing.

Very truly yours,

M. F. CONWAY.

### Fire Near Baltimore—Destruction of a Cotton Mill.

PHILADELPHIA, Saturday, Nov. 4.

A special to the *Evening Telegraph*, from Baltimore, says that one of the extensive Woodbury Cotton Mills, known as the Clipper Mills, belonging to WILLIAM E. HOOPER & JONES, on the Northern Central Railroad, three miles from Baltimore, was totally destroyed by fire this morning. The building was fired by incendiaries. The machinery was valued at from $150,000 to $200,000. All was destroyed. The stock was saved. The loss is mostly covered by insurance—chiefly in Northern companies. Two hundred hands are thrown out of employment.

SECOND DISPATCH.

BALTIMORE, Sunday, Nov. 5.

The Clipper Cotton Factory, three miles from this city, destroyed yesterday morning, was owned by Messrs. WILLIAM E. HOOPER & SONS. The loss is estimated at nearly $150,000, and the insurance at $59,000, of which $34,000 is in Hartford companies, and $20,000 in Massachusetts companies.

A heavy northeast gale has been blowing all day, and it is quite cold to-night. There was a snow-storm at Harper's Ferry this afternoon.

### Further Tidings of the Steamer Republic's Boats.

The Charleston *Courier*, of Nov. 2, says:

"The intelligence reaches us from Hilton Head that another boat of the steamer *Republic* has arrived at that port. The boat was picked up by a bark and contained twelve persons, including several women and children. All they had to subsist upon for three days was one shoulder of ham, a small quantity of bread and a few gallons of water. Some of the party when taken aboard of the vessel were in an almost exhausted condition. The officers and citizens at Hilton Head subscribed to a fund for the relief of the sufferers. Each man received $20, and two officers received each $32. The women were also cared for pecuniarily. This last boat makes up the number (four) of all the boats that were launched from the *Republic*, and all of which have reached shore in safety. A raft which was also launched is yet to be heard of. It is to be hoped that it has been picked up by some passing vessel.

The following verdict was rendered in the Loomis case this evening: "According to the testimony given, GEORGE WASHINGTON LOOMIS came to his death by the hands of three or more persons, and that one of these persons was JAMES L. FILKINS."

## STEAMER DESTOVED BY FIRE

### She is Supposed to Have Been a Government Transport.

### The Crew Probably Rescued by a Sailing Vessel.

The Savannah *Republican*, of the 1st, confirms the following;

The steamer *Weybosset*, from New-York, reports:

On the 27th of October, at 8 o'clock A. M., Cape Hatteras, bearing N. N. W., 15 miles distant, saw a vessel on fire, with another vessel, apparently a bark, lying alongside of her. The bark left her about fifteen or twenty minutes after we first saw her. As soon as she was discovered to be on fire we ran down to her, and when within about five miles of her she blew up, and nothing was afterward seen but a few spars, boxes, bales, &c.

The mate of the *Weybosset* thinks she was a small size river steamer, and no doubt used as a transport; and that she had a large quantity of powder on board, as the explosion was evidently caused by that material. She was painted white. He has no doubt the persons on board were taken off before she blew up, by the vessel seen alongside of her.

To form a faint idea of the feartul power of the explosion, it is only necessary to state that a large piece of one of the masts was blown into the air a distance of over two miles. (?)

The military authorities have relinquished the government of Savannah to the Mayor and Councils.

## PERSONAL.

The Richmond *Whig* doubts the story that Gen. LEE has made arrangements with a publisher in this city to issue his history of the rebellion. It says: "We were informed some months ago, by a gentleman who had means of information, that Gen. LEE had been visited by a New-York publisher, (we believe Mr. RICHARDSON,) with the view of inducing him to write a history of the war, the publication of which, upon terms very liberal to Gen. L., would be undertaken by Mr. R. If we were correctly informed, the General did not, at least at that time, enter into any agreement on the subject. But he communicated to our informant the sense of obligation which he felt to do justice to the great army which he had commanded, by making a historic record of its deeds of valor and its displays of fidelity and endurance. His personal reluctance at becoming the historian of events in which he was the chief actor was increased by the fact that most of his official papers had been lost upon the evacuation of this city—but he recognized as of controlling force a debt of gratitude to the brave men he had commanded and an obligation to the truth of history. It may be, therefore, reasonably supposed that Gen. LEE will avail himself of the retirement and favoring circumstances afforded by his present position to prepare a history of his campaigns and of the achievements of the renowned Army of Northern Virginia."

Col. CROSSAN, for a long time an officer in the United States Navy, died in Warren County, N. C., a few days since. Several years ago he resigned and located in North Carolina. At the commencement of the war he accepted a Lieutenancy in the Provisional Navy of North Carolina. As Lieutenant-Colonel he acted a conspicuous part in defence of Roanoke Island. Subsequently he commanded the blockade-runner *Advance* through her eventful career. He was a Pennsylvanian by birth.

Major Gen. SLOCUM's mother, Mrs. MARY O. SLOCUM, died in Syracuse on Monday evening. Mrs. SLOCUM was born in the city of Albany, and moved with her husband to Onondaga county, in 1818. She was 72 years of age. The funeral services were held at the residence of Judge LE ROY MORGAN, Thursday afternoon. Gen. SLOCUM is borne down by this irreparable loss, and will not be able to fill any more appointments during this canvass.

Col. J. E. KIRBY, of Austin County, Texas, was shot and almost instantly killed in the Provost Marshal's office, by Mr. JOHN STEELE, on Oct. 14. The Houston *Telegraph*, which states the fact, gives none of the particulars.

URIAH STOTT, employed at the Bridesburgh Arsenal, Philadelphia, was severely injured Nov. 2, by a shell which he was employed in emptying. His right arm and hand were so much shattered that it was feared amputation would be necessary.

### The St. John Disaster.

FUNERAL OF COUNCILLOR ARCHAMBAULT AND HIS WIFE AND CHILD.

*From the Montreal Witness, Nov. 2.*

This triple funeral, rendered more sadly solemn by the catastrophe which led to it, took place this morning. At 8:30 o'clock the procession formed at the late residence of the deceased, St. Catherine-street, and proceeded to the French Church, by way of Bleury-street. There were two hearses, in the first of which was the body of Mr. ARCHAMBAULT, and in the second those of his wife and child, both of the latter reposing in one coffin. The procession was one of the longest and most respectable we have ever witnessed, and testified to the respect and generally kindly feeling entertained toward Mr. ARCHAMBAULT for his open disposition and manly personal qualities. The names of the pall-bearers to the first hearse were: His Worship the Mayor, C. J. Coursol, Esq., Mr. Duhamel, Mr. Dessanies, Mr. Laflamme, and Mr. McNaughton, all of them being members of the legal profession except the Mayor. The names of the pall-bearers to the second hearse we did not learn. The police force (the deceased Councillor being a member of the Police Committee) followed in two lines, and between them came, first, the immediate relatives of the three deceased, then the members of the City Council, followed by the gentlemen of the Montreal bar, including Hon. Messrs. CARTIER and DORION. The Jacques Cartier Club came next, and also a number of gentlemen, friends and acquaintances of the deceased, and several carriages. The procession reached the French Cathedral at 9 o'clock, where a large number of spectators were already gathered. The coffins were placed in the centre of the central aisle of the church, and the imposing funeral ceremony and solemn music used on these occasions were gone through. The pulpits, &c., also the large window behind the alter, were in mourning. The funeral rites being over, the whole reformed opposite the church in the same order as it had come, and proceeded along Great St. James-street, on its way to the Catholic cemetery.

Before leaving this melancholy subject, we may say that it is proposed to erect over the grave a monument, on which shall be sculptured the steamer and other adjuncts connected with the melancholy accident that led to the death of Mr. ARCHAMBAULT, his wife and daughter.

### The Female Emigration Enterprise.

MERCHANTS' HOTEL, CORTLANDT-ST. }
NEW-YORK, Nov. 4, 1865. }

*To the Editor of the New-York Times:*

After many delays in getting the steamship *Continental* turned over to me for the transportation of the party of ladies, who have volunteered to accompany me to Washington Territory, success has rewarded the effort. Through the kindness of some of my friends who generously came forward and advanced the necessary means, the *Continental* has been purchased from the government, and is now being made ready for the voyage as rapidly as possible.

As this is an enterprise in which the public seems to feel considerable interest, I am happy to say that its success is no longer problematical. Should there not be an unusual amount of stormy weather to prevent the work of enlarging the cabin, we will sail at twelve o'clock, noon, Nov. 25.

Should there be a delay of one or two days, due notice will be given.

There are still accommodations for about forty additional passengers, at the rate of $200 for male passengers, and half that amount for females.

Very truly, A. S. MERCER.

## LOUISIANA.

### Freedmen's Affairs—Letter from Gen. Canby in Relation to the Freedmen's School Tax—The Testimony of Freedmen.

By the steamship *Evening Star* we have New-Orleans papers to Oct. 28.

LETTER FROM GEN. CANBY.

HEADQUARTERS, DEPARTMENT OF LOUISIANA, }
NEW-ORLEANS, La., Oct. 18, 1865. }

*To His Excellency the Governor of Louisiana, New-Orleans, Louisiana:*

SIR: I have the honor to acknowledge the receipt of your communication of the 13th inst., in relation to the taxes for school purposes levied and now being collected under General Orders No. 38, of 1864.

The order was issued by competent authority, and was within the legal discretion of the commander who issued it. It was one of a series of measures dating from the first occupation of the city by the forces of the United States, forced upon the army by military exigencies, and adopted by it for the purpose of relieving the citizens of New-Orleans from grievous burdens, and disembarrassing the army from incumbrances that would have hampered its movements and emasculated its efficiency. The city of New-Orleans was in no condition to feed the forty thousand of its inhabitants who were then fed, or of the gradually diminishing numbers in the intermediate periods to the present time, to the twelve thousand that are in part still fed by the army. It was in no condition to sustain the public charities that have been and are still, to a considerable extent, relieved by the army; nor for the care and education of the several thousand colored children which, but for the assistance rendered by the army, would have been, to a material extent, a charge upon the city treasury or a burden upon the public and private charities of its inhabitants.

It is not pertinent to this question to discuss the wisdom of these measures. It is sufficient to say that they were adopted at a time of great public and military exigency, and that as a practical result they have relieved the city and people of New-Orleans, independent of the contributions that have been levied, especially for that purpose, of an expenditure of more than $2,000,000, and that some of the exigencies have fallen upon us by a natural and inevitable inheritance, which we must meet as we may best meet them.

I have already advised your Excellency, both orally and in writing, that the necessities above indicated have outrun the means at the disposal of the military authorities for their relief, and that advances have been made not authorized by law or regulations, that should be reimbursed in order to save the officers who made them from pecuniary accountability at the Treasury of the United States. These amount, in the aggregate, to between $375,000 and $400,000, and have been made in the interest and for the benefit of the people of New Orleans. The collection of the particular tax to which your communication refers is one of these cases.

Under the law of March 3, 1865, and the order of the President, of June 2, 1865, the subject was transferred to the Bureau of Refugees, Freedmen and Abandoned Lands, and is now under the control of that bureau, except so far as military authority may be necessary to enforce its collection, and that collection is necessary in order to reimburse advances made to the Freedmen's Bureau, and for that reason is urged by the Commissioner General HOWARD, at the head of that bureau.

Its remission at this time will necessarily throw upon the State and city much greater burdens than they are now bearing. But while I cannot concede that the points made by the petitioners have been well considered by them, or that the remission can properly be claimed upon any principle of justice or equity, I will very willingly unite with your Excellency and Gen. FULLERTON in any measure of relief that may be devised.

Very respectfully, Sir, your obedient servant,

E. R. S. CANBY,
Major-General Commanding.

ORDER BY GEN. FULLERTON.

HEADQUARTERS BUREAU OF REFUGEES, }
FREEDMEN AND ABANDONED LANDS, }
STATE OF LOUISIANA, }
NEW-ORLEANS, Oct. 26, 1865. }

By virtue of the law of the State of Louisiana the testimony of freedmen is admissible in all cases that can be brought to trial in the courts of said State. There is no legal disabilities resting upon them by reason of color. They may sue and be sued in all tribunals. It is, therefore, ordered that the Provost Court for freedmen, at the headquarters of this bureau, and all other courts of any description whatsoever, that have been established by officers of this bureau within the State of Louisiana, be abolished. All cases now pending in such courts will be at once transferred to the proper State courts.

So long as this bureau remains in existence, it shall be the duty of the agents and Provost-Marshals of the same, or of officers appointed by them for such purpose, to bring suits for freedmen when necessary, in the State courts within their respective districts, and they shall in such cases appear as their next friend or attorney.

Hereafter no arrests shall be made by any officer or agent of this bureau, nor shall they interfere in any manner with the proceedings of civil courts or the execution of the law. If, however, an outrage has been committed upon freedmen, and the civil authorities refuse to offer relief or take notice of the same, the agents of this bureau will at once lay the matter before the nearest military commander, who, if the case requires action, will make arrests and render all necessary assistance.

In transferring these matters to the civil courts it is hoped and believed by the Assistant Commissioner of this Bureau, that all judicial officers and magistrates will act justly and temperately toward the freedmen, and will render them the kind assistance that is required by a people, who, having been lately manumitted, are to a great extent ignorant of the laws and customs that govern free persons.

The civil tribunals cannot suffer by being just to all men. If justice is done there will no longer be a cause or pretext for militry interference in such civil matters. On the other hand, the freedmen must not take it for granted that the courts will fail to protect them in their rights if in some, cases immediate hearing or justice is not obtained. The delays of the law are proverbial. Judges and juries are not infallible. Where wrong decisions have been made appeals can be taken or other legal remedies obtained.

By order of

Brevet Brig.-Gen. J. S. FULLERTON,
Assistant Commissioner Bureau of Refugees, Freedmen and Abandoned Lands, State of Louisiana.

## THE VOTE ON STATE DEBT.

### Explanations Concerning the Proposition to Create a Debt to Refund Money Advanced by the Several Counties for War Purposes.

ALBANY, Sunday, Nov. 5.

Information received here indicates that in some sections of the State there is a misapprehension of the question to be submitted to the people at the election to-morrow, as to the approval or reject on of the act providing for a debt for bounty purposes.

On the 10th of February, chapter 29 of the laws of 1865 was passed. It provided for a State bounty of 600, 400, and 300 dollars. It authorized the Comptroller to borrow the necessary funds, and prohibited cities or towns from paying local bounties. Sec. 8 provided that a debt should be created. Sec. 9 provided that the debt should not exceed $30,000,000, and that a direct annual tax should be levied to pay the interest on said debt, and also a direct annual tax sufficient to pay, in the space of eighteen years, the whole debt; the principal to be paid in six, twelve and eighteen years.

Sec. 10 authorized the Comptroller to issue bonds. Sec. 11 provided that the act should be submitted to the people at the next general election, and that each elector may present a ballot as follows: "For the act to create a State debt to pay bounties," or "Against the act to create a State debt to pay bounties."

Chapter 56 of the Laws of 1865 provides that there shall be levied and collected for the fiscal year commencing Oct. 1, 1865, a tax of 2 per cent. upon the assessed value of the real and personal property of the State of New-York, or so much thereof as may be necessary to provide for the payment of the bounties authorized by the aforesaid chapter 29.

Sec. 5 provides that if the people at the next general election approve chapter 29 creating the debt, then the tax imposed by the 1st section of this act (chapter 56) shall not be levied and collected; and if the debt is approved, then the Comptroller is directed forthwith to issue a circular directing the tax herein provided for to be omitted.

Chapter 325 of the laws of 1865 is an act amendatory of chapter 29. It provides for the creation of a State debt, not to exceed thirty millions of dollars, and for the imposition and collection of a direct annual tax to pay the interest on such debt; and also a direct annual tax to create a sinking fund to pay the principal in twelve years. Section 4 provides for the submission of the act to the people for approval or rejection, designating the ballots to be used the same as in chapter 29. Section 8 repeals sections 8, 9, 10, 11, 12 and 13 of chapter 29 above referred to.

It has been ascertained that very many electors suppose that if they vote the ballot "against the act to create a State debt to pay bounties," they thereby express their opposition to its immediate payment. The elector should distinctly understand that if he approves the creation of the debt, the principal of which shall not be paid until the expiration of twelve years, he must vote the ballot: "For the act to create a State debt to pay bounties."

## LOCAL POLITICAL AFFAIRS.

### List of Candidates in this City and Brooklyn.

### Dissensions in the Ranks of the Democracy.

The proof of the pudding lies in its eating, of a contest in the election. To-morrow, big with results, will decide the political complexion of our State, of our Senate and Assembly and the *personel* of the bench, sundry local offices in this county and many of those in Kings County likewise.

THE CANDIDATES

are more numerous than ever. Ordinarily there are only twice as many candidates as there are offices, but this election differs from any of its predecessors in many essentials, and one of them is the great number of candidates who are willing for the sake of the dear people to accept office and position at their hands, and serve in public capacity.

*For the Supreme Court*—There are three candidates. The Republicans name Hon. L. B. Woodruff; Tammany and Mozart name Hon. Daniel P. Ingraham.

*For the Superior Court*—The Republicans name Isaac Dayton and H. C. Van Voorst; Tammany, A. L. Robertson and Samuel Jones; Mozart, James Moncrief and Samuel Jones; McKeon Democracy, A. L. Robertson and James Moncrief.

*For Court of Common Pleas*—The Republicans name J. J. Townsend; Tammany and Mozart, Charles P. Daley.

*For the Marine Court*—The Republicans name J. D. Macgregor and A. J. Dittenhoffer; Tammany, Michael C. Gross and Henry Alker; Mozart and McKeon, Henry Alker and B. O'Connor.

The Democracy claim that Messrs. Ingraham, Moncrief, Jones, and Alker are as good as elected already, but as it is never safe to say who is Governor until after the votes are counted, the Union men are not disposed to take the word of the Democracy as final, and propose to work hard until sunset of tomorrow.

THE SENATORIAL CONTEST

is particularly active and interesting. The nominations are as follows:

| District. | Republican. | Democrat. |
|---|---|---|
| 2—Henry R. Pierson. | | Robert Christy. |
| | | C. E. Pratt. |
| 3—Phillip S. Crooke. | | H. C. Murphy. |
| 4—M. W. Burns. | | C. O. B. Bryant. |
| C. V. Lewis. | | Ben. Wood. |
| | | M. W. Burns. |
| 5—G. C. Dean, Jr., | | C. G. Cornell. |
| *Not* Judge Dean. | | D. M. O'Brien. |
| | | D. V. Freeman. |
| 6—Abraham Lent. | | Nich. Quackenbose. |
| | | V. C. King. |
| | | T. C. Fields. |
| 7—Thomas Murphy. | | G. W. McLean. |

Of the election of Mr. HENRY R. PIERSON in the Second District, no well-informed man has any doubt. The chances of Gen. CROOKE as against Mr. MURPHY are less brilliant, but owing to the general state of disatisfaction among the Democracy with the candidate for Mayor (KALBFLEISCH) and the continual trading of votes on the Judicial question, it is deemed not improbable that both the Republican candidates will be returned. The friends of BENJ. WOOD claim that they have "secured" enough votes to ensure his triumphant election, and his enemies say all sorts of hard things. That he is personally active may be inferred from the fact that he has seized the glass ballot boxes belonging to the City of Brooklyn as satisfaction for debt, and the authorities are now preparing butter kegs as receptacles for the votes of the faithful—butter tubs are *not* generally transparent. In the Fifth, Mr. DEANE has been confounded with Ex-Judge DEAN of Democratic and Capt. GORDON renown. They are not identical. In the Sixth,

## EXPLOSION IN GREENWICH-STREET.

### Fortunate Escape of a Hotel and its Inmates—Twenty-four Persons Wounded—No one Mortally.

Between 11 and 12 o'clock yesterday morning, an explosion occurred at the Wyoming Hotel, at No. 333 Greenwich-street, and twenty-four persons, inmates of the house and dwellers in the neighborhood, were wounded, two of the number quite seriously. The concussion, which was so great as to break the glass in nearly every window on both sides of the block from Duane to Jay street, was heard throughout the entire southwestern portion of the city.

According to the statement of Mr. WILLIAM STODDARD, landlord of the Wyoming, the cause of the disaster was a small box containing chemical oils and acids. Mr. STODDARD says that on the 31st of August last Mr. THEODORE LEERS took rooms at the Wyoming, and brought with his luggage this box, a small oblong wooden box of about 24 inches in length by 15 in width and depth, with rope handles on the sides. The box was not taken with Mr. LEERS' luggage up to his rooms, but was stowed away in a corner of the barroom, and it there remained as a useless incumbrance during Mr. LEERS' tarry and subsequent to his departure from the hotel. Mr. LEERS went from the house about a month ago, and it being noticed that he had not removed the box, it was proposed that notice of his omission to take all of his property should be given him; but as no one knew whither he had gone, the landlord concluded to wait until he should call.

Yesterday morning some person tossed this box over, and probably broke one of the bottles of acid; for shortly thereafter a scent of sulphuric acid was perceptible, and the box was found to be on fire. This was the first intimation of the explosive character of its contents. Water was at once thrown upon it; but the flames being within and it being manifest that other property must be consumed if the box were not removed, it was taken up by the porter and tossed into the gutter in front of the hotel, and it had hardly struck the curbstone when the explosion occurred.

The detonation brought the firemen and the police promptly to the spot, and with them a multitude of residents of the neighborhood; and Assistant Engineers EVERETT and COSTA, and Policemen THOMAS REGAN, J. W. WALKER, JOHN HANIFER and ALEXANDER WILSEY, who were the first on the ground, lost no time in attending the wounded. Mr. CORNELIUS STEVENS, a milkman, who was riding past the Wyoming at the time of the explosion, was taken from the street stunned, mutilated and bleeding. Capts. GARDNER and PETTY, with sections of policemen, soon reached the ground, and Capt. PETTY, taking command, employed his men in taking the wounded to the Leonard-street Police-station and to the New-York Hospital. At the former place Police Surgeons KENNEDY, SUTTON and GIBSON bound up the wounds of the sufferers, and those that were sent to the New-York Hospital were placed under the care of Drs. WHITE, SABINE and JOHNSON. We have obtained, as follows, from the New-York Hospital and from the Fifth Ward Police-station a complete list of

THE WOUNDED.

CORNELIUS STEVENS, of No. 28 Vandam-street, milkman, jaw fractured and otherwise seriously injured.

FRANKLIN J. MAY, boarder at the Wyoming Hotel—face wound from glass.

JOHN C. ABELING—cut in face by glass.

B. W. BURRIDGE, of the Wyoming Hotel—face wound from glass.

JOSEPH NUGENT, of the Wyoming Hotel—face.

JOSEPH KING, of the Wyoming Hotel—face.

JOHN GROGAN, of the Wyoming Hotel—slight.

F. W. DRAKE, of the Wyoming Hotel—face.

ERNEST SEAMER, of No. 52 Macdougall-street—face wound from glass.

GUSTAV KAREBOW, barber in the basement of the Wyoming Hotel—cut by a razor with which he was shaving a customer at the time of the explosion.

J. C. MERSEREAU, of the Wyoming Hotel—slight.

JOHN O'BRIEN, of No. 326 Greenwich-street, opposite the hotel—face wounds.

CHARLES STEWART, of the Wyoming Hotel, compositor in the *Daily News* office—eyes supposed to have been put out; Surgeon KENNEDY says that they may be saved.

W. R. COLTON, of the Wyoming Hotel, compositor—slight.

Mrs. W. R. COLTON, of the Wyoming Hotel—face badly cut.

JOHANNA RENNE, of the Wyoming Hotel—face and neck severely cut by glass.

JOSEPH KING, of the Wyoming Hotel—neck and head; slight.

EDWARD CHASE, of the Wyoming Hotel; neck and head—slight.

Mrs. BLAZARD, of No. 326 Greenwich-street, wife of Policeman BLAZARD, of the Third Precinct, wounded in the face by glass from her own windows.

WILLIAM H. EMMONS, of the Wyoming Hotel—slight.

RICHARD HUSLES, of No. 328 Greenwich-street—neck and face.

HERMAN HUSLES, of No. 328 Greenwich-steet; head—slight.

LEWIS SUSSMAN, barber, in the basement of the Wyoming Hotel—glass in face.

JOHN WYMAN, of the Wyoming Hotel; head—slight.

THE DAMAGE

to the Wyoming Hotel is greater than to any other building on the block. Nearly every window and nearly everything of glass in the house was shattered; a marble column supporting a mantle in the parlor, on the second floor, was broken; the front doors and windows were blown in bodily; furniture and mirrors in the barber's-shop in the basement were broken; a barber's pole near which the explosion took place was shivered as if by lightning; the gutter wherein the box lay was torn up and in a portion of the sidewalk the explosive material burrowed to the depth of about eighteen inches. Messrs. MŒCH, SAGE & CO.'s produce store, at No. 331 Greenwich-street, a room of a hundred feet in depth, was considerably damaged, all the glass having been broken, and an entire window, far in the rear, being blown out, notwithstanding the windows of the front, nearest the explosion, were covered by substantial shutters. All the windows fronting on both sides of Greenwich-street, from No. 321 to No. 338 were shattered, and many panes were broken in buildings north of Jay-street.

Yesterday afternoon, the wounded having been relieved, Capt. PETTY cleared the street from Jay to Duane, and left Sergeant LUSH and a section of patrolmen to guard the warehouses near the Wyoming House until he could summon their proprietors. Meanwhile, having ascertained the present abode of

MR. THEODORE LEERS,

Capt. PETTY sent Special Officer RICHARD FIELD to Eighth-avenue and Twenty-fifth-street in quest of that gentleman. Mr. LEERS reached the Leonard-street Police Station late in the afternoon, and made a frank, clear statement, which convinced everybody of his perfect innocence. He said that he came hither from Hamburg in June last and arrived on the 27th of August, immediately thereafter, on the recommendation of a friend, taking rooms at the Wyoming. The box was given him by a friend at the outset of the voyage, and was said to contain chemical oils with which he could speculate in America. So utterly unconscious was he of the nature of its contents, that he kept it in his berth during the voyage. On moving from the Wyoming to lodgings up town he sent an expressman to get his luggage, and that person had forgotten the box of chemicals. Mr. LEERS is agent for Mr. A. WORMSER, of No. 39 Warren street.

## MURDER OF POLICEMAN DURYEA.

### The Alleged Murderer Arrested in Columbus, Ohio.

EXAMINATION BEFORE JUSTICE DODGE.

Special Officer JOHN HARRIS, of the Eighteenth Ward, arrived in town Saturday morning with JOHN CAHILL, whom he arrested on Thursday morning in Columbus, Ohio, as the alleged murderer of Patrolman GEORGE W. DURYEA.

Policeman DURYEA, who was one of the best officers of the Nineteenth Precinct—an officer whose services in the riots are remembered to his honor by his comrades—attempted to take three thieves into custody near Jones' Wood, on the afternoon of the 16th of May, 1864, and was there shot, and almost instantly killed. His murderer escaped; but officers of the Eighteenth and Nineteenth Precincts secured such facts as led them to regard one JOHN CAHILL as the murderer, and for him they accordingly sought. He eluded them until the 19th of June following, when he was apprehended by Officers HARRIS and VERMILYEA, of Capt. JOHN CAMERON'S force, and by them surrendered to Coroner LOUIS NAUMANN. A formal and searching inquest was held; but the Coroner was unable to find any tangible evidence against the prisoner, and the jury rendered a verdict that GEORGE W. DURYEA came to his death by a pistol-shot wound at the hands of a man unknown to them, and that JOHN O'CONELL was accessory before the fact. CAHILL was thereupon liberated. In now appears, from the affidavits of his confederates, that he informed them that he had killed a policeman, and that he must fly from this city; and in pursuance of this resolve he went hence, it appears, to Columbus, Ohio, where he had made many acquaintances during his career as a bounty-jumper. He there opened a liquor-store and supposed himself secure. His confederates had "given away" (as the detective police style it) the principal witness against him, and that person had been sent to the Sing Sing Prison; the other witnesses, he thought, dare not lisp a word lest they should bring trouble to themselves.

Pursuit had been abandoned, and our police authorities had begun to despair of bringing the murderer of their fellow-officer to justice, when, on Sunday, the 22d ultimo, one OWEN HART having been arrested on charges accusing him of having committed two grand larcenies and one felonious assault, THOMAS HART, his brother, accompanied him to Jefferson Market Police Court, and, hoping to save OWEN by making a revelation, informed Special Officer JOHN HARRIS that he and his brother knew who shot Officer DURYEA, and that they witnessed the shooting. This fact was communicated, without delay, to Justice DODGE.

The Justice thereupon took THOMAS HART'S affidavit, an at once instituted a secret investigation, in which he secured the depositions of ANNE GREAGAN, WILLIAM HARNEY and OWEN HART, showing that, at the time of the killing of the officer, CAHILL and the officer were struggling for mastery; that CAHILL had a silver-mounted pistol in his hand; that he subsequently gave this pistol to WILLIAM HARNEY, a barkeeper at No. 235 Grand-street; that he told one of the HARTS that he had killed a policeman and must leave the city; and that the pistol which HARNEY produced in court was the identical weapon wherewith Officer DURYEA was killed. One of the witnesses also swore that he saw CAHILL fire upon Officer DURYEA, and all said that they had held their peace only because they had feared violence at the hands of CAHILL'S confederates.

Upon these affidavits Justice DODGE executed a warrant and gave the same to Officer HARRIS, who immediately set forth to find the accused. He first went to Philadelphia, but ascertaining that CAHILL was not in that city, he returned to New-York. Here he adopted a ruse to discover CAHILL'S whereabouts. Pretending to be an employe of the Adams Express Company, he called upon CAHILL'S mother-in-law and notified her that a sum of money had been sent to her address, but that he dared not deliver it to her lest there should prove to be a mistake in the name; if, however, she could give the address of the person who had sent the money he would be satisfied and deliver it to her. She then told him that her daughter, BRIDGET MCAULIFFE, the wife of JOHN CAHILL, dwelt at No. 210 High-street, in Columbus, Ohio. Saying that he would see the address of the person who had sent the money, the officer bade Mrs. MCAULIFFE adieu and posted off on the next train for the West. In Columbus, he accosted the first policeman that he met, and, desiring to be conducted to the Chief of Police, was mistaken for a lunatic, and committed to a cell. On the following morning he was taken before Mayor BULL, and to that gentleman he privately made his mission known, and exhibited his warrant and Metropolitan Police badge. Mayor BULL at once seconded him; and Gov. ANDERSON, on being informed of the facts, decided that the case was so plain that Officer HARRIS might take CAHILL from the State without the usual formalities.

Officer HARRIS went to CAHILL'S porter-house early on Thursday morning last, and met him at the door. Offering his hand, he greeted the accused, and at the same time snapped hand-cuffs on his wrists. CAHILL, perceiving that he had been caught, attempted to knock HARRIS to the pavement, but was met by a pistol, and thus speedily brought to terms. Officer HARRIS, fearing a writ of *habeas corpus*, hurried off with his prisoner, and reached this city on Saturday morning, as is stated above. He immediately reported to Justice DODGE, and, after a formal examination, on Saturday afternoon, the Justice committed CAHILL, and one JOHN O'CONELL, whom the evidence shows to have been engaged in the murder. CAHILL is 23 years of age, and O'CONELL, 23; both are natives of Ireland. The witnesses are detained in the House of Detention.

The charges upon which OWEN HART was arrested were preferred by CAHILL'S confederates as a part of their plan of getting out of the way all evidence against CAHILL; but instead of sending him to State Prison, their "put-up job" may result in sending their friend to the gallows. The papers in the case have been very carefully drawn by Mr. THOMAS W. PITTMAN and Assistant District-Attorney GUNNING S. BEDFORD, Jr., and the latter, who will represent the people, has no doubt that he can convict one if not both of the prisoners.

## Inquests by Coroner Wildey.

SUICIDE IN CROSBY-STREET.

MARIA CREIGHTON, a Canadian miss of 22 years, died at No. 27 Crosby-street, yesterday morning, from a dose of arsenic which she had taken, intending to commit suicide. The girl, having taken the poison, and when about to die, attempted to tell her tale to a companion, but expired before anything had been revealed to show the cause of the act.

ACCIDENTALLY SHOT.

Mr. CORNELIUS POST, of New-Jersey, died at the New-York Hospital, yesterday, of wounds which he received on the 29th ultimo, from the accidental bursting of his fowling-piece. He was 35 years of age.

RUN OVER BY A RAILROAD CAR.

On the 1st inst., MICHAEL FLAHERTY, of No. 115 Mulberry-street, was run over by an Eighth-avenue car, and one of his legs was crushed. He was taken to St. Vincent's Hospital, and there he died yesterday. He was a native of Ireland, 22 years of age.

UNKNOWN DROWNED.

Yesterday morning, the body of a man of about five feet six inches in stature, apparently about 40 years of age, and attired in a black cloth suit, was found at the foot of Whitehall-street. It was sent to Bellevue Hospital dead house.

METROPOLITAN POLICE.—The following appointments were made last week: David Griffiths, to the Central Office; William F. Kirchner, to the Seventh Precinct; Andrew Clarkson, to the Twenty-first; Geo. D. Knight, to the Eighteenth; Theodore Lenoy-les, to the Eleventh; Alonzo M. Fisk, to the Forty-ninth, and William Judge, to the Eleventh.

## IMPORTANT TO VOTERS OF NEW-YORK.

### SHALL THIS COUNTY BE COMPELLED TO PAY A STATE BOUNTY TAX OF $10,894,413 20 NEXT YEAR!

### Action of the Board of Supervisors.

THEY ADVISE EVERY CITIZEN TO VOTE "FOR THE ACT TO CREATE A STATE DEBT TO PAY BOUNTIES."

OFFICE OF THE CLERK OF THE BOARD OF SUPERVISORS, NEW-YORK, Nov. 4, 1865.

At a meeting of the Board of Supervisors held this day, the following preamble and resolutions were adopted. J. B. YOUNG, Clerk.

*Whereas*, By the Bounty Laws of the Legislature of 1865, provision is made for a state tax of thirty millions ($30,000,000) of dollars for the purpose of assuming as a State charge the expense of raising the quota of the State under the call of the President, dated Dec. 19, 1864, for three hundred thousand (300,000) men; and

*Whereas*, By chapter three hundred and twenty-five (325) of the laws of 1865, appended hereto, provision is made to submit to the people of the State, at the general election to be held on Tuesday next, the question whether such tax shall be made a twelve (12) year loan or not; while, by other laws, it is provided that should the people decide against such twelve (12) year loan, then the whole debt of thirty millions of dollars ($30,000,000) shall be paid in 1866, from moneys to be raised by tax on the assessable property of the State; and

*Whereas*, The State Comptroller has given the Supervisors of this county the following notice in regard to this, among other matters affecting the tax on this county for State purposes for the year 1866, viz.:

COMPTROLLER'S OFFICE, ALBANY, Oct. 10, 1865.

SIR: The Board of Equalization of Taxes, in pursuance of chapter 312, of the laws of 1859, have fixed the aggregate valuation of property in your county at the sum of $622,595,040, upon which amount a State tax of $13,798,262 67 must be levied for the coming year, being 22 13-80 mills on the dollar, for the following purposes, viz:

For schools, ¼ of a mill, per chapter 555, laws 1864.

For general purposes, 2¼ mills, per chapter 709, laws 1865.

For canals, ¾ of a mill, per chapter 85, laws 1865.

For canals, ¼ of a mill, per chapter 271, laws 1859.

For extension of Chenango Canal, 3-16 of a mill, per chapter 185, laws 1864.

For Champlain Canal, 1-10 of a mill, per chapter 186, laws 1864.

For bounties, 1¼ per cent., per chapter 56, laws 1865.*

Your obedient servant,
L. ROBINSON, Comptroller.

* If a majority of votes shall be given at the general election in November in favor of creating a debt for the bounties, this item will be omitted from the tax-levy and a circular directing its omission will be issued from this office.

*And whereas*, the following sums represent the amount which this county must raise for State purposes next year, in case the people on Tuesday do not decide affirmatively "For the Act to create a State Debt," viz.:

| For what Purpose. | Amount. |
|---|---|
| For schools, ¼ of a mill, per chapter 555, laws 1864 | $466,946 28 |
| For general purposes, 2¼ mills, per chapter 709, laws 1865 | 1,556,487 60 |
| For canals, ¾ of a mill, per chapter 85, laws 1865 | 544,770 66 |
| For canals, — of a mill, per chapter 271, laws 1859 | 155,648 76 |
| For extension of Chenango Canal, 3-16 of a mill, per chapter 185, laws 1864 | 116,736 57 |
| For Champlain Canal, 1-10 of a mill, per chapter 186, laws 1864 | 62,259 50 |
| For bounties, 1¼ per cent., per chapter 56, laws 1865 | 10,895,413 20 |
| Total | $13,798,262 67 |

*And whereas*, of this sum of ten millions eight hundred and ninety-five thousand four hundred and thirteen dollars and twenty cents ($10,895,413 20,) required of us for State bounty purposes, it is understood that the whole sum will be expended in reimbursing localities for expenditures in raising their quotas under the last call of the President for men, of which the County of New-York will receive back by way of reimbursement less than the sum of three millions of dollars ($3,000,000,) leaving a sum of eight millions of dollars ($8,000,000) to be paid by this county for State tax, and for which we receive no return whatever; and

*Whereas*, If the people, on Tuesday next, should not decide in favor of the act to create a State Debt, as contemplated by chapter three hundred and twenty-five (325) of the laws of 1865, the County of New-York will be required to raise, by tax in 1866, the whole of the sum of ten millions eight hundred and ninety-five thousand four hundred and thirteen dollars and twenty cents ($10,895,413 20) for the Bounty Tax, in addition to sundry other amounts, which will swell the total tax on this county, for the year 1866, for State purposes alone, to the enormous aggregate of thirteen millions seven hundred and ninety-eight thousand two hundred and sixty-two dollars and sixty-seven cents, ($13,798,262 67,) and increase the rate of taxation of next year to an absolutely burdensome figure; and

*Whereas*, It is unquestionably for the interests of the people of this county, whether tax-payers or not—since every citizen is more or less affected by the amount of taxation—that this bounty tax on this county, of nearly eleven millions of dollars, ($11,000,000,) should be distributed over a series of years, to secure which end it is important that the question "for or against the act to create a State debt" should be decided affirmatively at the election on Tuesday next; therefore be it

*Resolved*, That the Supervisors of the County of New-York do earnestly recommend every citizen of the County of New-York, entitled to vote, to deposit his ballot on Tuesday next for "The Act to create a State debt to pay bounties."

*Resolved*, That the Committee on Volunteering be and they are hereby directed to have at once prepared a sufficiency of ballots "For the Act to create a State Debt to pay Bounties," to supply all citizens of the County of New-York with a sufficiency thereof for election day, and to distribute said ballots to the General Committees of each of the political parties, on or before Monday next, with a copy of this preamble and resolutions, duly authenticated by the President and Clerk of this board, to the end that those whose duty it is to distribute tickets may fully understand the importance of this subject.

*Resolved*, That the same committee be and it is hereby directed to have this preamble and resolutions conspicuously published in all the prominent papers of this city until the election, and to use all other judicious measures, by posters or otherwise, to call the attention of every voter to this important subject.

*Resolved*, That inasmuch as this is purely a financial question without taint of politics, that the press of this city, without distinction of party, are hereby solicited to lend their great powers of quickly disseminating information to the work of bringing this matter to the attention of the people of this county, and their influence to urging every citizen to vote affirmatively on the question "For the Act to create a State debt to pay Bounties."

### APPENDIX.

Laws of 1865.
Chap. 325.

AN ACT

To provide the means of paying bounties authorized by law, and of reimbursing municipalities for bounties paid by them in pursuance of law, by creating a state debt for that purpose; and to submit to the people the question of creating such debt, and to repeal certain sections of chapter twenty-nine of the Laws of eighteen hundred and sixty-five.

Passed April 7, 1865; three-fifths being present.

*The People of the State of New-York, represented in Senate and Assembly, do enact as follows:*

SECTION 1. To provide the means of paying all bounties authorized by law to be paid by this state to volunteers, drafted men, or substitutes, and to provide the means of reimbursing cities, counties and towns for bounties paid by them to volunteers, drafted men, or substitutes, so far as the bounties so paid by them are authorized by a law of this state, to be reimbursed or refunded to them, a debt of this state is hereby created and authorized to be contracted, which debt shall be for the single object of paying, reimbursing, and refunding the said bounties.

SEC. 2. The debt hereby created and authorized to be contracted shall not exceed the sum of thirty millions of dollars, and there shall be imposed, levied and assessed upon the taxable property of this State a direct annual tax to pay the interest on the said debt, as such interest falls due, which said direct annual tax shall be sufficient to pay such interest as it falls due. And to create a sinking fund for the payment of said debt, there shall also be imposed, levied and assessed, upon the taxable property of this State, a direct annual tax to pay, and sufficient to pay, in the space of twelve years from the time of the passage of this act, the whole of the debt created and contracted under and by the provisions of this act.

SEC. 3. To obtain the money necessary for the purposes contemplated by this act, the Comptroller is authorized to issue the bonds of the State, in such sums each as shall seem meet to him, with coupons thereto attached for the payment of the interest on such bonds, at a rate not exceeding seven per centum per annum, half-yearly, on the first days of July and January, in each year, until the principal thereof is payable, at such place in the City of New-York as shall seem meet to him, and the whole principal shall be payable in such place in New-York City as the Comptroller shall deem meet, in twelve years from the passage of this act. The bonds to be issued by the Comptroller, under the provisions of this act, shall be disposed of by the Comptroller as follows: First, he shall, as soon as may be, after the approval of this act by the people, issue at par, to the holders of any of the revenue bonds of this State which, under the provisions of any law of this State, shall have been therefore issued by him to raise moneys for the payment of the bounties specified in the first section of this act, or to reimburse or refund to cities, counties or towns the bounties paid by them, as specified in the first section of this act, so much of the bonds authorized by this act as shall equal in amount the revenue bonds of this State which shall have heretotore been issued by him as aforesaid. Second, he shall then, as to the remainder of the bonds authorized to be issued by this act, before disposing of them or any of them, advertise for proposals for the same, and shall open the proposals and award the same to the highest bidder, at a rate not less than par, which advertising and disposition shall be according to the provisions of law now existing.

SEC. 4. This act shall be submitted to the people at the next general election to be held in this State. The inspectors of election in the different election districts in this State shall provide at each poll, on said election day, a box in the usual form, for the reception of the ballots herein provided; and each and every elector of this State may present a ballot which shall be a paper ticket, on which shall be printed or written, or partly written and partly printed, one of the following forms, namely: "For the act to create a State debt to pay bounties," or "Against the act to create a State debt to pay bounties." The said ballots shall be so folded as to conceal the contents of the ballot, and shall be indorsed, "Act in relation to bounties."

SEC. 5. After finally closing the polls of such election, the inspectors thereof shall, immediately and without adjournment, proceed to count and canvass the ballots given in relation to the proposed act in the same manner as they are by law required to canvass the ballots given for Governor, and thereupon shall set down in writing, and in words at full length, the whole number of votes given "For the act to create a State debt," and the whole number of votes given "Against the act to create a State debt," and certify and subscribe the same, and cause the copies thereof to be made, certified and delivered, as prescribed by law in respect to the canvass of votes given at an election for Governor. And all the provisions of law in relation to elections, other than for military and town officers, shall apply to the submission to the people herein provided for.

SEC. 6. The Secretary of State shall, with all convenient dispatch, after this act shall receive the approval of the Governor, cause the same to be struck off and printed upon slips, in such numbers as shall be sufficient to supply the different officers of this State concerned in notifying or in holding elections, or in canvassing the votes, and shall transmit the same to such officers.

SEC. 7. This act shall become a law when it is ratified by the people, in pursuance of the constitution and the provisions thereof.

SEC. 8. Sections, eight, nine, ten, eleven, twelve and thirteen of chapter twenty-nine of the laws of eighteen hundred and sixty-five are hereby repealed.

Adopted by Board of Supervisors Nov. 4, 1865.
Approved by the Mayor Nov. 4, 1865.
J. B. YOUNG, Clerk.

MONDAY, Nov. 6—A. M.

The Trade of the past week was generally active and the Money market steady in rates, and in sufficient ease of supply for both Merchants and Brokers. The Export return is one of the largest for Domestic Produce made for several months, while the Export of Gold is quite unimportant; reversing the movement this time last November. The Cotton export for the present week will not be so large as the last, by probably 5,000 bales. There is more doing in the way of direct clearances for Europe from New-Orleans and Mobile, though the stock on hand at the first-named port, as at New-York, continues large. The Customs duties continue large, and the Gold receipts into the Treasury from this source more than double the Gold Interest paid out. The Sub-Treasury will be prepared to-day to receive Gold on deposit, and to issue Gold Certificates of $1,000 or $5,000 thereon, allowing no interest, and making no charge for safe keeping to the depositor. The Stock Exchange was active through the week, though speculation is not yet so general among the Railways as the large volume of business would indicate. Gold leaves off higher than the Saturday before, while Exchange is about the same, after having declined for the steamer of Wednesday.

The Import Entries for the past week, including the Dry Goods return in our last paper, amount to $5,375,138, as against the total entries of $1,360,879, same week last year. The Export Clearances of Domestic Produce amount to $6,-608,467, against $3,331,398 same week last year. The export of Specie amounts to $92,700, against $2,206,690, same week last year. The Customs for the week are $2,687,490. The receipts of Cotton, coastwise and by railroad, are $26,765 bales. The number of emigrant passengers arrived during the week is $7,828.

The Import entries of Foreign Merchandise at New-York since the 1st of January are officially (to 1st October) and semi-officially (since) reported, as follows—the small entries of Foreign Specie being omitted:

| | | | |
|---|---|---|---|
| January | $10,337,849 | August | $24,293,336 |
| February | 11,366,964 | Sept. | 22,307,272 |
| March | 15,789,131 | Oct. 7 | 4,288,947 |
| April | 13,937,972 | Oct. 14 | 6,13 ,642 |

| Jun | 16,619,288 | Oct. 28 | 5,022,370 |
| July | 18,982,198 | Nov. 4 | 5,375,138 |
| Total to date | | | $173,170,449 |
| Against same time 1864 | | | 200,753,377 |
| Decrease since Jan. 1 | | | $27,183,168 |

While this *decrease* in the gross or original entries of Foreign Goods, (including Goods bonded,) is shown by our table, the amount of Goods actually marketed, and on which Customs have been paid since 1st January, is really about seventeen millions in *excess* of the amount actually marketed to the same date in 1864.

The Exports of Domestic Produce and Miscellaneous Goods, including Foreign articles re-exported since January. 1, are:

| | | | |
|---|---|---|---|
| January | $16,561,598 | August | $14,681,077 |

## NEWS OF THE DAY.

### GENERAL NEWS.

A dispatch from Toronto says that an ex-Grand Master of the Orangemen, Mr. GOWAN, has published a manifesto declaring that the Fenians are coming, and calling the Orangemen to arms. The Orange organ, the *Watchman*, has a leader declaring that it has positive information of a contemplated invasion of the provinces; that there are now six hundred armed men in Toronto; that several members of the government are fraternizing with the Fenians, and that the Premier winks at the contemplated attempt to sever the provinces from British connection.

Official notice was delivered by our Minister at London, on the 17th of March last, to the British Government, of the termination of the Reciprocity Treaty between the United States and Her Britannic Majesty, in conformity with the provisions of the treaty and of the joint resolutions of Congress, approved Jan. 18, 1865. Collectors of customs and others have, therefore, been officially instructed by the Secretary of the Treasury that the operation of the treaty will cease on the expiration of twelve months from the time of which the notice was given.

Where colonies of freedmen exist in the South at such points as the relief system of the Freedmen's Bureau has not reached, the mortality among the freed people, as shown by the official returns to the bureau, has reached thirty per cent. Where the operations of the bureau have so extended as to take in a number of these colonies, the mortality has been speedily reduced to four per cent. by the medical assistance of the bureau official.

On the 27th ult. a steamer, supposed to be a government transport, was discovered by the steamer *Weybosset* to be on fire, in the vicinity of Cape Hatteras. The burning steamer was distant about fifteen miles, and before the *Weybosset* could reach her she blew up. The effect of the explosion was tremendous. It is supposed that the crew of the steamer were rescued by a bark, which was seen alongside when she was first observed from the *Weybosset*.

Advices from Catalonia, Spain, say the cholera there is diminishing rapidly, and hopes are entertained it will soon disappear. Our Consul at Nuremburg states that the reports of cholera having appeared in that city are untrue. Not a single case had occurred, nor was it believed that the Asiatic cholera had made its appearance in Germany at all, with the exception of a few cases reported in Altenburg.

We have intelligence from the seat of war in South America to the 23d of September. The Paraguayans had suffered another defeat, losing the city of Uuruguayua, together with five thousand prisoners, who were immediately disposed of by being drafted into the allied army. The victory caused great rejoicing at Buenos Ayres. At this the Paraguayans cannot hold out much longer.

Our Washington correspondent says that the stories told in a New-York paper about the suspension by government of the sale of horses and other material of war are wholly untrue. The same paper a few days ago propagated the sensational news that the Navy Department had ordered all vessels of war into commission.

JOHN OVERTON, said to be the richest man in Tennessee, has been pardoned by the President. Gen. FISK, of the Freedmen's Bureau, declines to restore his property, and has gone in person to Washington to make inquiries.

A building, corner of Canal and Traverse streets, Boston, owned by the Maine Railroad Company, and used for the storage of freight, was burned Saturday afternoon, with a quantity of hay and two car loads of potatoes.

The steamer *Evening Star* arrived last evening from New-Orleans. She brings papers to the 28th of October. We are indebted to the purser for customary favors.

### LOCAL NEWS.

Justice Miller, of the Supreme Court, has rendered an important decision in the case of Charles Luling *et al. vs.* the Atlantic Mutual Insurance Co. The defendants issued policies to the plaintiffs, the premiums and also the losses on which were payable in gold. At the end of the year the defendants issued certificates of profits, in which all their customers participated. The plaintiffs received their certificate, which was calculated on a currency and not on a gold basis, and they then commenced an action against the company to compel them to readjust the dividends. Justice Miller rendered a decision to the effect that the plaintiffs are entitled to a certificate for an increased amount, so as to place them on an equality with the holders of certificates of currency policies. A referee is to be appointed, to whom the defendants must render an account of the manner in which they have made up their statement of dividends for the years of 1863 and 1864, and estimated their profits, and the statement of dividends readjusted in accordance with the suggestions here made. In the meantime the defendants are enjoined from redeeming any of the certificates issued for the year 1863, and from issuing any new ones for the year 1864, until they have corrected and readjusted the declaration of dividends made.

The excitement regarding the *Atalanta* and her cargo of cholera continues to some extent. The Deputy Health Officer in charge at Quarantine, Dr. WALSER, made a report on Saturday, in which he states that during the passage of the ship there were sixty cases of, and sixteen deaths from, cholera. He says the disease is of a mild type, but that the present unfavorable state of the weather may affect the character of the disease. Since the report of Saturday, several new cases have broken out in the ship, one of which has resulted in death. So far the cholera is confined to the steerage passengers, no symptoms appearing in either the first or second cabins.

The Board of Supervisors met on Saturday. A communication was received from the Corporation Counsel, stating that vacancies in the lists of Inspectors and Canvassers of Election can be filled only by the Police Commissioners, and not by the Board of Supervisors. A preamble and resolution were adopted instructing the Committee on Volunteering to prepare ballots for citizens desiring to vote on the question of extending the time of redemption of the State Bounty Loan of $30,000,000 for a term of twelve years. The Board adjourned to the 14th instant.

Yesterday forenoon a box of chemical oils exploded in front of the Wyoming Hotel, at No. 333 Greenwich-street, and 24 persons were wounded, and all the glass in the block between Jay and Duane streets was broken. But little damage was done beyond the breaking of glass, and only two of the injured were seriously wounded.

The congregation of St. Charles' Church, Sidney-place, Brooklyn, held last evening, their annual festival of Saint Charles Borrimeo, after whom the church was named. The exercises consisted of Donizetti's Vespers, sung admirably by a choir of professionals, and an address by Archbishop MCCLOSKEY, on the life and piety of St. CHARLES, during which he impressed upon his hearers the necessity of religion and the beauty of virtue. The festival was interesting and aided materially the funds of the church.

FRANCIS STABENON, a young Prussian with half a dozen aliases, who has been stopping for some time at the Everett House, was arrested on Saturday on a charge of being a deserter from the regular army. The prisoner has been received in certain circles as a Prussian nobleman, and has victimized a great many foolish people in large amounts of money by adroit misrepresentations.

The second billiard match for $1,000 a side, between DUDLEY KAVANAGH and PIERRE CARME, came off at Irving Hall, on Saturday evening, before an immense number of spectators, resulting in KAVANAGH winning by a score of 1,500 to CARME'S 1,339. CARME'S highest run was 178, KAVANAGH'S 132.

The case of ALLEN *vs.* ORTEGA, pending in the Superior Court, Special Term, a full account of which was published in the TIMES of Saturday, was determined on Saturday by the court granting the motion. The order of arrest is vacated, and the order to show cause discharged, with $10 costs to abide the event.

MICHAEL FLAHERTY, of No. 115 Mulberry-street, who was run over by an Eighth-avenue car on the 1st inst., died at St. Vincent's Hospital yesterday. An inquest was held by Coroner WILDEY.

Mr. CORNELIUS POST, of New-Jersey, died at the New-York Hospital yesterday, of wounds from the accidental bursting of his fowling piece. An inquest was held by Coroner WILDEY.

MARIA CREIGHTON, a Canadian miss of 22 years, committed suicide by taking arsenic at No. 97 Crosby-street, yesterday.

There was considerable excitement at the Stock Exchange on Saturday on Prairie du Chien Railway common shares, which, after rising 25 per cent. in the week, further advanced 20@25 per cent., placing the sales as large as 110@115 per cent., as against 65 on Saturday before. There was an active business in the other Railways. Governments quiet. Money easy at 7 per cent. Gold, as on Friday, 146⅞. A sharp canvass is reported to be going on for the control of the New-York Central election in December. Freights were inactive.

Business in produce and merchandise was impeded on Saturday by the rain-storm. Transactions in all the leading articles were limited, and prices in most instances favored buyers.

### Registry—Last Chance.

Remember that if you are *not* registered and wish to vote, you *must be registered to-day*. If your name is not down before the registry closes this evening, *you cannot vote*. Let every actual voter yet unrecorded be sure to give in his name early to-day.

We call attention to various political advertisements on the fifth and eighth pages. Every voter should study these announcements especially, to know what to avoid in the way of tricks and deceptions. The official list of voting places is on the fifth page.

### President Johnson's Policy and the Democratic Party.

There never was a greater insult to the intelligence of a free people than the claim of the Democratic party to the special championship of the reconstruction policy of President JOHNSON. So far from being its particular defenders, they are not its supporters at all. What they are striving for is precisely what he is opposed to, both theoretically and practically.

Their theory is that the close of the war of itself revives the relations of the rebel States to the Union, and that the practical restoration consists only in the civil reorganization of the States by the Southern people themselves, in accordance with their own will. On the other hand President JOHNSON'S principle is, that the abeyance of constitutional rights does not pass away with the mere close of the war; that it must terminate only at the discretion of the government against which the rebellion was directed, and that the first duty of the government is to see that it continues until all obligations are fulfilled and all safeguards established. The Democratic party considers that the Southern States have a right to a restoration, immediate and unconditional. President JOHNSON, on the other hand, deems it to be both his right and his duty to impose conditions. He insists that the Southern States shall accept and ratify the constitutional amendment, forever prohibiting slavery—that the debts contracted to maintain the rebellion shall be repudiated—that effective laws shall be passed for the protection of the natural rights of the freedmen. Before transmitting to the States their old civil powers, he means to have substantial guarantees that those powers shall not be abused, to the prejudice of the national justice, honor and peace. Therein his policy differs most broadly from that of the Democratic party. All their pretentions to the contrary are sheer impudence.

The Democratic party are very careful to put their claim to a support of President JOHNSON only in the shape of loose assertion. They studiously avoid specifications. Not a syllable of approbation has been given by them to the President's letters and despatches to the Southern conventions urging the adoption of measures which he deems indispensable. In regard to all these practical doings of the President, they have habitually kept a grim silence. So far as relates to the duty of Congress they talk freely enough. They do not hesitate to say that all the Southern members elect should be enrolled by the clerk at once on the presentation of credentials, and be admitted unreservedly to their seats. They claim this boldly on the grounds of constitutional right, shaping their demands precisely after the Southern fashion. But the same argument that would require this instant, unconditional recognition of the old congressional rights of the South, would require just such a recognition by the President of all its other old rights. The Democratic leaders understand this well enough, but they do not dare to apply their principle to the action of the President. They think it to be their interest to hide themselves under the brazen assumption that the policy of the President is just their own. After the Fall elections are over we shall see them coming out against the President, and taking sides in open day with the extremest Southern pretenders to Southern rights.

All the testimony concerning the state of the Southern mind justifies the great caution which President JOHNSON is now exercising in his work of reconstruction. The magnanimity which he has displayed has not been responded to with the large-hearted loyalty it ought to have inspired. There is a growing disposition among the leaders to talk high about constitutional rights, just as if they had never been in arms against the constitution. There is an increasing disinclination to make any concessions in favor of the freedmen; and to adopt a broad, tolerant, generous policy, such as would be calculated to draw Northern immigration. This unpromising spirit, it is true, has not yet very much developed itself. But there is great danger that it will grow into a most mischievous power unless checked in this early stage by a firm hand. We believe that nothing could be more fatal in its results than the Democratic policy of taking from it all restraint, forthwith. The mere form of reconstruction might thus be the sooner realized, but the substance would only be put further off than ever. If we are to have solid security and harmony hereafter, it can only come from the prudent and just policy which President JOHNSON is seeking to carry out, the only consistent and legitimate sequel of the war. It devolves upon the Union party to uphold him in it—the same party which so grandly upheld President LINCOLN in carrying through the war. This is the work which the great loyal organization of this State must do its part of to-morrow.

### Gov. Seymour on the Tread-Mill.

We have the authority of the *World* for saying that Gov. SEYMOUR, of whom JOHN VAN BUREN says such pleasant things, tried the patience of the people of Little Falls, for two mortal hours!

We knew that Gov. SEYMOUR liked the sound of his own voice. We knew that he was a patient talker, but we did not suppose that he would try his "friends" so severely. That he is bound to do all he can to help his party up we admit, for he certainly did more than any other man in breaking it *down*. Gov. SEYMOUR resembles that generous but capricious "milky mother" who yields a flowing pail of creamy liquid, and then kicks it over.

During the rebellion Gov. SEYMOUR saw double; indeed, he was a sort of double man—himself and another. As Governor he claimed to be doing his duty. But as a politician his Copperhead proclivities cropped out whenever and wherever an occasion was presented. His sympathies and influence were thrown into all Copperhead organizations. Assuming the secession of the Southern States as a "fixed fact," he speculated about *other* secessions, breaking the Union into fragments. And finally, at the Chicago Convention, he went with the Copperheads for a "Peace" platform and a "Peace" Vice-President. That brought him, with his party, "to grief."

Gov. SEYMOUR'S speech is as tedious as a "thrice-told tale." He nurses Messrs. ROBINSON, SLOCUM and GROVER, but withholds nourishment from JOHN VAN, their nominee for Attorney-General.

Of Mr. ROBINSON, Gov. SEYMOUR says, "I am supporting a man who opposed me last Fall." This would be magnanimous if it were true. Mr. ROBINSON did not take interest enough "in the honor of the State" to vote last Fall. Gov. SEYMOUR supports Mr. ROBINSON because he conspired with others last year to defeat LINCOLN and JOHNSON.

### The Report of the Confederate Bondholders.

The report of the Committee of Confederate Bondholders, which was read to a small meeting of those unfortunates at the London Tavern on the 18th of October, contains so many extraordinary, and even ludicrous positions, that we hardly know where to begin to discuss them. It opened by setting forth a correspondence with the house of ERLANGER & Co., the contractor of the loan, the amount of which was that that shrewd house announced that it had no property whatever of the rebel government, or anything else which could help the bondholders. It would seem as if that fact made any further report utterly useless, but the committee seem not to have been at all discouraged by this fact, but proceed with as long a report as if there were millions of property within their reach.

Fortified by the opinion of one Mr. FLEMING, Q. C., which they gave at full length, they declared that there is no doubt but that "sooner or later, either the United States or the States which lately formed the Confederation will recognize and pay the loan." They could not but feel, however, that Mr. SEWARD'S letter on the decision in the case of the United States *vs.* PRIOLEAU made the assumption of it by the United States a most unlikely event, and they attack the letter most sharply, and undertake to teach Mr. SEWARD a lesson on international law, which reminds one of the proverb—"Teach your grandmother how to suck eggs."

Next they regret so much that we should have thrown away so "glorious an opportunity" of establishing our credit in Europe. Really, when our Five-Twenty bonds are going abroad at the rate of about a million per week, it is ridiculous enough to suggest that we should have paid these "heaters of the poker" for us, from any such considerations. Europe does not seem to have been very much "shocked" by our "proclaiming a policy of repudiation," and if it were, what Europe thinks is not of so much consideration here as it was once.

The main confidence of the committee, however, was found in the hope that the States may pay. They complimented the policy of the President in relation to the Southern States, as most encouraging. If they had at that time read the words in the President's letter to the Georgia Convention, that "it should at once be made known, at home and *abroad*, that no debt contracted for the purpose of dissolving the Union can or ever will be paid by taxes levied on the people for such purpose," their notion of his "true, statesmanlike views" would probably have received some modification.

The suggestions made by the committee were, first that they should flatter the Southern States by passing "a vote of confidence in their integrity," and then should suggest to them that if they would make some arrangement of this little debt, they would *try* to get some more money for them. Whenever the Southern States are so much in need of money as to be willing to pay $10,000,000 more than necessary interest on their proposed loan, they would probably find it well to deal with this committee, but that day is apparently at some distance yet.

The second suggestion of the committee was as to funds. They thought the bondholders ought to offer five per cent on the debt to the committee who should have charge of the matter, for which sum they thought the committee would send an agent over here. But they could not themselves serve as such committee. Modestly they urge that "abler and more influential bondholders" should compose it. We suspect that their modesty will be catching and that it will be hard to find any who will jump at that honorable position.

The report winds up by pathetically reminding "those whom it may concern, and especially Mr. SEWARD," that the loan was "strictly a mercantile transaction," and that the option of exchanging the loan for cotton six months after peace was declared "made every cotton bondholder a promoter of peace." There is no danger that Mr. SEWARD will forget it. The only peace which the lenders or borrowers looked forward to was a peace which should dishonor our flag, and dismember our country, and introduce a slaveholding confederacy into the family of nations. Such a peace these bondholders were doubtless promoters of, and how they promoted it, the swarms of English blockade runners, the piles of English arms and powder and goods sent to sustain the waning fortunes of the rebellion, will always show. Mr. SEWARD will not forget it, and the people of this country will not forget it, and the payment of one penny of that debt will never be made by any action of theirs.

### Some Remarkable Figures.

There are four wards in this city upon which the Democratic party have for years drawn for any required amount of majority. They are the first, fourth, sixth and fourteenth. Last year they gave MCCLELLAN 12,266 votes, and LINCOLN 1,835—in all 14,103. To keep up their strength, the party this year have been active in bringing up their men to be registered, yet thus far the whole number of voters of all parties recorded in these wards is but 9,128. Say that only 1,500 of the 1,835 Unionists are recorded, and we have the significant fact that only 7,628 Democrats have been raked up, while MCCLELLAN had counted out for him 12,266. Now where are the 4,638 last year's Democrats not yet registered? Would it be presuming too much to guess that there might have been the least touch of illegal voting in these precincts? Compare the three strongest Union wards with the above and see the difference:

These figures tell the story; they show the chief ground of Democratic opposition to the Registry Law. Let our friends be vigilant to-day. It is rumored that, as a last resort, the exasperated Opposition intend to make a rush of all sorts of people for registry, and if their unknown names are refused, that they mean to seize and destroy the lists already made, in the forlorn hope of vitiating the election altogether. A party that cannot find two-thirds of its last year's voters is equal to any swindle. Look to the Registry!

### The Gains and Losses of the South.

We are glad to see the growth of a more hopeful spirit in the South, as to its future prospects and condition. We have given articles in this vein from the journals of Richmond, New-Orleans, Charleston and other cities. The country papers of the South are getting to be no less hopeful than those of the cities. The Charlottesville *Chronicle* says: "We are going to be richer and more prosperous than we ever were. We are going to be populous, going to have great cities, going to grow alive with all the forms of industry. With wealth will come knowledge and culture, literature, science, art." Such are the prospective gains of the South under the new order of things. As to its losses, says the *Chronicle*:

"Our loss is a matter of sentiment—it is that of our *distinctiveness* as a race. Virginia—the South—has lost its *individuality*. What became of the Etruscan town of Veii after it was taken by M. FURIUS CAMILLUS? What became of the Samnites? They were incorporated in the Roman State—and they became Romans themselves—but Etruscans and Samnites no more. Perhaps their destiny was more brilliant as members of a united Italy, subdued into that unity by the power of Rome, than if they had maintained their autonomy, and perished like Sparta and Athens. We shall be assimilated to the North, as Etruria was to Rome, and shall be free American citizens, as Italy came to constitute Rome."

The South never had any "*distinctiveness* as a *race*" to lose, if we except the distinctiveness of its negro race, which is not the thing referred to. The white population were of the same origin and stock, of the same faith and language, of the same fundamental characteristics, as the population of the other parts of the country. The climate of the farther Southern States and the institution of slavery had wrought, through the course of time, certain differences, but they were not even skin deep, and some of them are already beginning to disappear, under the new state of things. The historical analogy attempted by the *Chronicle* will not hold water.

The *Chronicle* sees only one chance to remedy the mortifying loss of "distinctiveness as a race" by the Southern people. "The South must become *powerful*, and *power* may yet make her the peer of the North. The seat of empire was transferred from Rome to Constantinople." To this mode of achieving greatness we do not object, provided it be honorably pursued. The true source of power are population, intelligence and wealth, and for these every State and community should be rivals.

MONTGOMERY BLAIR.—The existing canvass presents several revolting features. It is equally discreditable to the Democratic party, and the political "skedadlers" upon its ticket that these deserters, as soon as they reach the enemy's camp, should be rewarded with promotions. The British Government pensioned ARNOLD, but they did not put him in office. Though the exhibition is disgusting, it is perfectly natural that apostate nominees should have apostate champions. Mr. BLAIR himself is a shameful political deserter. He has no reason or excuse for going over to the "Peace" Democracy, but that of disappointment in obtaining office. Though but a third or fourth-rate lawyer, he demanded from Mr. LINCOLN the office of Chief Justice! That was very properly refused, and there he is abusing and slandering men for whom he professed friendship until he failed to obtain an office which required all *his* impudence and mendacity to ask for. How very low the Democracy has fallen, that it seeks refugees for candidates, and for its "heavy business" on the stump, a played-out office-seeker!

SOUTH AMERICAN MODE OF DISPOSING OF PRISONERS.—We have intelligence this morning from South America that in the war between Paraguay and Brazil, the latter power has made a capture of five thousand prisoners, who were immediately disposed of by being drafted into the Brazilian or allied army, to serve against their own country. This is not an absolutely novel mode of disposing of prisoners of war; but the expedient has generally worked very badly, and has frequently been the cause of disasters in the field. The allies will doubtless distribute their five thousand Paraguayan prisoners through their army in companies, or else will totally break up the organization and sprinkle them individually among their own forces.

Rebel prisoners of war were used in our own service, by their own will, to the number of several thousand, but the War Department sent them to the Western plains, to do duty against the Indian savages. There are still, we believe, several regiments of them on the frontier.

THE REPUBLICAN PARTY.—The Democracy do not condescend to tell us in what respects they desire to alter the course of the present Republican administration. The magnanimous policy of the administration toward the South they profess to approve. The policy of the Secretary of the Treasury in reducing the aggregate of the public debt, and economizing the public expenses, they do not find fault with. The foreign policy of the Secretary of State they have not assailed. The disbandment of the army and the naval forces, by the Secretaries of War and of the Navy, they do not complain of. In short, the administration of the Republican party seems to suit them in nearly all its features. Under these circumstances, they should all vote the republican ticket.

THE QUACKS AND THE CHOLERA.—The quacks are already taking advantage of the threatened approach of the cholera, and expect to reap a rich harvest if it really comes. All sorts of nostrums and specifics, liquid and solid, in pills and powders, are making their appearance, each warranted to cure. The intelligent public need not be warned against these dangerous medicaments. Some of them may be harmless, but far the greater part are really injurious. There is no medical specific for the cholera; but good care and the advice of a good physician should always be availed of, in case of danger.

CONGRESSIONAL.—In the Northern district (Essex, Warren and Clinton Counties) of this State, Hon. ROBERT S. HALE has been nominated by the Union men to fill the vacancy caused by the death of Hon. ORLANDO KELLOGG. No better nomination could have been made. Judge HALE is a lawyer of great ability and high professional standing, and a gentleman of scholarly culture, most excellent character and wide popularity. His election is beyond question, and his services in Congress will be patriotic and valuable.

ASSEMBLY.—THOMAS E. STEWART is the Union candidate for reelection in the Seventh Assembly District. There was no more faithful, industrious or competent member in the Legislature of last Winter than he. He was unwearied in serving his constituents, and in pushing forward every measure for the good of the State; and no man ever impeached or suspected his integrity. He ought to be reelected by an increased majority.

SIXTH SENATORIAL DISTRICT.—The good people of this district have an excellent candidate in the person of Mr. ABRAHAM LENT, and they should send him to Albany by a complimentary majority. Mr. LENT has done faithful and valuable service in the city counsels, and is intimately acquainted with the interests and wishes of our citizens. He is indefatigable and painstaking in duty, and if chosen will prove one of the most hard-working and faithful of representatives. Let him have a rousing vote.

SEVENTH SENATE DISTRICT.—Let no Union man be made to believe that THOMAS MURPHY, the Union candidate for the State Senate in the seventh district, cannot be elected. He *can* if the Union men will give him their votes. The two Democratic candidates will so divide the Democratic vote as to render his election easy. There is no better man on any ticket. He is generous, faithful, and honest.

A GRAVE MISTAKE.—Some papers have stated that a naturalized citizen can *vote* upon affidavit that his papers are lost. It is not so. He may be *registered* upon such evidence, if the registrars choose to accept it; but if he is not registered to-day, all the affidavits in the world will not enable him to vote. *No man can vote whose name is not on the record.*

SECOND SENATORIAL DISTRICT.—The Union men of Kings County have no more worthy man nominated for place than the candidate for Senator of the Second District, Mr. HENRY R. PIERSON. He is an old citizen, well posted by active service, and his record as a Union man is untarnished. His energy and consistency are admitted on all hands, and his opponents have only one charge which they make against him, which is, that he is President of the Brooklyn City Railroad Company. The answer to this is, that under Mr. PIERSON'S management that institution has been greatly improved. He is beloved by his men as being kind, giving them liberal wages, and lightening their duty when he can. He is attentive to all complaints, and promptly remedies them when possible. He has popularized an institute always open to abuses, and has shown himself sagacious and faithful. Mr. PIERSON will be elected, we think, but let every Union man vote for him. His opponent, CALVIN E. PRATT, is running on his military reputation. He was a militia General, and being a strong MCCLELLAN man, left the army when he did, and has since spent his time in denouncing the Administration, until the last somersault of his party, and now claims to be elected upon such a record.

THE FIFTH ASSEMBLY DISTRICT, KINGS COUNTY.—The Union candidate for the Assembly in the Fifth Assembly District of Kings County, Mr. WM. W. GOODRICH, is an energetic, industrious young lawyer, a man of integrity, an Albanian by birth, but thoroughly identified with Brooklyn interests, and will make an efficient, capable and honest legislator. The district was close last Fall, but there is little doubt of Mr. GOODRICH'S election. If he is defeated by the Copperhead vote of the Ninth Ward, it will be at least some consolation that they have had to cast their votes for as bitter a Know-Nothing as ever followed the dark lantern.

COL. JOHN D. MACGREGOR.—Gen. HOOKER has addressed the following note to Col. MACGREGOR'S Committee:

NEW-YORK, Nov. 4, 1865.

*Gen. J. H. Hobart Ward, Col. W. S. Hillyer and others, Committee:*

GENTLEMEN: It gives me great pleasure to bear testimony to the soldiery qualifications of Col. JOHN D. MACGREGOR, late of the Fourth New-York Volunteers. He served the cause with devotion, and for his services throughout the rebellion is justly deserving the confidence and gratitude of his loyal countrymen. He did duty with the Army of the Potomac, with which he won his laurels, and gained the esteem of his companions. With high regard, your friend and servant, JOSEPH HOOKER.

*Whereas*, Col. JOHN D. MACGREGOR, of the First Scott Life Guard, and First Lieutenant of the Veteran Scott Life Guard, is the soldiers' and Union candidate for Judge of the Marine Court, full term, and possesses the unbounded confidence of the soldiers of New-York.

*Resolved*, That it is the duty of every soldier, as well as of every patriotic citizen, to support Col. MACGREGOR in the present canvass, especially as he is the only soldier before the people for any county office.

*Resolved*, That this preamble and resolution be presented to Lieut.-Gen. WINFIELD SCOTT, under whose name we have organized and sent two regiments to the field, and that he be requested to give a public statement relative to the claims of Col. MACGREGOR upon the gratitude and support of his countrymen.

J. H. HOBART WARD,
late Brig.-Gen. U. S. V., formerly Capt. Vet. S. L. G.
JAMES M. BAYLIES, Secretary.

THE SOLDIERS' CANDIDATE FOR JUDGE OF THE MARINE COURT.—The following is a copy of a telegram from Maj.-Gen. SICKLES:

BOSTON, MASS., Nov. 5, 1865.

*To Gen. Ward and Col. Hillyer, Committee United Service Society, New-York:*

Your dispatch received. I am glad to see the nomination of my friend Col. JOHN D. MACGREGOR, late of the Fourth New-York Volunteers. He was a successful lawyer, and gave up a lucrative business to enter the army immediately after the fall of Sumter. He will make a good judge. His brilliant services in the Army of the Potomac entitle him to the admiration of every soldier and the gratitude of every citizen. I hope he will be elected.

D. E. SICKLES, Major-General.

### Major-Gen. Kilpatrick to Hon. John B. Haskin.

NEW-YORK, Nov. 6, 1865.

*To the Editor of the New-York Times:*

In the *Herald* of yesterday I observed a communication from the Hon. JOHN B. HASKIN denying the statement made by me last Friday evening at the Academy of Music, in Brooklyn, that Gen. LOGAN and myself had received similar letters to the one addressed to Major-Gen. SHERMAN. I reiterate that I did receive such a letter, written either by Hon. JOHN B. HASKIN or some representative of his, as it was certainly over his signature. I mentioned at the time its contents to Gen. JOHN L. SWIFT and others, discussing the policy of answering, and I refer all persons who doubt my veracity to the General above mentioned, who is now at the Astor House, in this city. The honorable gentleman also denies in his note having written a similar letter to Major-Gen. LOGAN. I again assert that Gen. LOGAN did receive such a letter, and that I have seen the letter, and refer all persons who may feel disposed to believe Mr. HASKIN rather than myself, to Gen. LOGAN, now at the St. Nicholas Hotel, in this city, for the verification of these statements.

J. KILPATRICK,
Major-General U. S. Vols.

### AMUSEMENTS.

MEYERBEER'S opera of "Robert le Diable," produced successfully at the Academy of Music on Friday evening, and to one of the most brilliant audiences of the season, will be repeated to-night for the second and "last" time. The veracity of the latter statement, as well as its necessity, may well be questioned. The sternest managerial duty can hardly justify the withdrawal of a work which the public demands. Our confidence in this Spartan resolve is somewhat shaken, too, by noticing that the comic opera of "Crispino e la Comare," which was played for the "last" time on Tuesday of the past week, will be repeated to-morrow night. At the time we ventured to suggest that it was a pity to shelve this very agreeable work. It is with entire satisfaction, therefore, that we hear of its restoration to the programme. A satisfactory demonstration of the popularity of the music was made on Saturday, when, notwithstanding the terrible storm, a brilliant and large audience assembled at the matinée, and seemed to enjoy itself in defiance of the elements. Mr. MALETZEK'S announcements for the week are full of interest. They are as follows: To-night, (Monday,) "Robert le Diable;" to-morrow, (Tuesday,)"Crispino e la Comare;" Wednesday, "Rigoletto;" Thursday, opera in Brooklyn; Friday, "Fra Diavolo;" Saturday, a grand combination matinée, and on Saturday evening, a grand extra performance for the benefit of the Benevolent Dramatic and Musical Association. (What is this?—something with a "strike" in it?)

Mr. THEODORE THOMAS' first "Symphonie-Soirée" takes place at Irving Hall on Saturday evening. We lack space to refer at length to the many admirable points of the programme. We shall take another opportunity of doing so. In the meanwhile we are glad to hear that the subscription progresses satisfactorily.

MRS. AMELIA PROSSER, a lady of distinction in intellectual circles of the Old World, has arrived in this city with the intention of shortly giving a few elocutionary and poetical entertainments. The lady's powers are described as quite remarkable, and at a private soirée recently given at the house of THOS. W. PHELPS, Esq., on Seventeenth-street, she excited the liveliest interest, and elicited from a critical audience an encouraging and gratifying amount of applause.

The announcements to-night at the various places of amusement are as follows: At Wallack's Theatre, "The Needful;" at the Winter Garden, Mr. JOHN BROUGHAM in "Playing with Fire;" at the Olympic Theatre, the "Streets of New-York;" at Niblo's, the RAVELS, (it is the last week of their engagement,) in the "Green Monster"—Young America appearing as the creature in question; at Barnum's, the beautiful equestrienne, OCEANA, appears for a few nights more as the "French Spy," and in the afternoon Mr. C. W. CLARKE, a favorite and excellent actor, plays *John Mildmay* in "Still Waters Run Deep;" at the Hippotheatron the company will be entirely reconstructed, and the programme altered in every particular. The change takes place to-night. At the New Bowery Theatre the splendid spectacle of the "Cataract of the Ganges" will be revived, with Miss KATE FISHER as *Zamina*. A local drama and a farce are also given. At the Old Bowery Theatre Miss FANNY HERRING will sustain, for the first time, the principal part in the new sensation drama of "Bacarat." Mr. FOX also appears in a pantomime. At the Minstrel Halls the programmes are varied and amusing. At the American Theatre, No. 444 Broadway, "Nozze Napolitaine," the "Eton Boy," and the "Jolly Darkies."

Our Brooklyn friends must not forget that a first-class Circus is now temporarily located in their city. It is situated on the lot at the junction of DeKalb and Fulton avenues, and is under the direction of S. B. HOWE. The grand opening procession takes place to-day.

Mr. DE CORDOVA'S humorous lectures commence to-morrow evening at Irving Hall. The subject of No. 1 is "Mrs. Grigg." (Widow.)

The patrons of the Fine Arts will be rewarded by visiting the Art Gallery, No. 625 Broadway, where HUNTINGDON'S great picture of the "Republican Court" is still on exhibition. The Stereopticon at the Church corner of Crosby and Grand streets, and the Diorama at the Brooklyn Atheneum will also be found worthy of a visit.

### Personal.

Mr. CONWAY, of the Freedmen's Bureau, arrived per steamer *Evening Star*, from New Orleans, yesterday A. M., and is stopping at the Astor House. He is ordered to report to Gen. HOWARD for duty, and will proceed to Washington on Wednesday. After doing as much as any one in America to bring the difficult "negro problem" to a satisfactory solution, Mr. CONWAY is tempted to seek more easy life, but the situation is still such that it is possible he will continue in the harness a while longer.

**A Timely Warning to the Sick.**

It is especially important at this time, when the markets of the United States are flooded with the direst poisons, under the name of imported liquors, and when domestic compounds purporting to be medicinal, but not a whit less pernicious, are heralded to the world as "sovereign remedies," that the public should fully understand the facts. Be it known, then, that while all the diffusive stimulants called *liquors* are impure, and all the *Tonics* containing alcohol are manufactured with a fiery article containing *amyl* or *fusel oil*, a *mortal poison*, HOSTETTER'S CELEBRATED STOMACH BITTERS contain none of these things, but are a combination of pure essence of Rye with the pure juices of the most valuable stomachic, anti-bilious, and aperient herbs and plants, and that as a safe and rapid remedy for Dyspepsia and all its kindred complaints, this preparation stands before the world without a rival or competitor. Its sales to-day are equal to the combined sales of all the other tonics advertised in the United States, and the certificates which authenticate its usefulness are signed by individuals of the highest standing in every professional calling and walk of life. Beware of imitations and impostors.

IMPORTANT TO THE PUBLIC!

DR. VON EISENBERG'S

ÆSTHETICO-NEURALGICON,

THE CELEBRATED APPARATUS.

*From the New-York Express.*

So many able and earnest men are devoting themselves to medical investigation, that it would be strange if new discoveries were not made. Among the most brilliant of these—we may indeed say the most brilliant of all—is that of Dr. VON EISENBERG, in regard to the *Etherealization of Medicines*: we may properly call it the "Spiritualization," since the Latin *Spiritus*, whence comes our word "Spiritual," signifies primarily, simply 'the air."

Many of the most important and vital organs of the human frame cannot be reached by medicines in a solid or even in a liquid form. Thus the *lungs* are shut up in a bony chest to which access can be had only through the wind-pipe, the opening of which is closed by a valve, called the "epiglottis," so sensitive and so delicately constructed, that it will not allow the passage, except by main force, of the most minute crumb, or the smallest drop of liquid. Every person who has "swallowed the wrong way" the smallest substance, whether of liquid or solid, knows the feeling of strangulation thereby occasioned. A man cannot, if he would, voluntarily swallow any liquid or solid into the lungs, or the passage leading to them. Herein lies the true reason why Consumption has been so incurable.

As to the entire apparatus, we have no hesitation in saying that we regard it as a wonderful invention—one that, were it not so costly, we have little doubt would be adopted by every hospital and medical college in the country. We are satisfied it would well repay, even if he had to journey all the way from Europe, the scientific man to see and examine it. It is a marvel of mechanical complexity, and yet, when its multiform uses are considered, of extreme simplicity and great beauty. That it will in every respect fulfill the expectations of the inventor, we have every reason to believe. It has been constructed with an accurate knowledge of its ultimate uses. One so experienced in the specialities for which it is particularly intended as is Dr. Von Eisenberg, and for which he has long felt the necessity in his practice, could make no failure. With it he is enabled to surmount obstacles that were hitherto deemed all but impossible to control. He can now approach with certainty and diagnose thoroughly every disease that, in the course of his extended practice, he aims to master. To those, therefore, who are in any way afflicted with loss of sight or hearing, with catarrh, bronchitis, chest or lung diseases, we earnestly suggest a visit to the consulting apartments of Dr. VON EISENBERG. There he will be speedily made to know the possibility of a cure in even complicated cases. We hereto observe that the apparatus is intended also to bring the etherealized medicines into direct action upon the nerves. The nervous system is the source of many diseases. All physicians admit this, and all profess at least to be able to apply a remedy. The Allopathic, Homeopathic and Hydropathic, by prescribing opiates, anodynes, &c., may, and do, alleviate the pain arising from impaired or diseased nerves; but this does not restore the nerve, it is only temporary relief—a relief, too, to some one nerve at the expense of the entire system. The Æsthetico-Neuralgicon of Dr. Von Eisenberg not merely allays the irritation, but restores the nerve to its normal condition. The Doctor's theory is, that each nerve has a specific office, and has its own peculiar susceptibility. Thus, for example, the nerve of vision is insensible to touch; and, on the other hand, the nerve of touch is insensible to light, and so on through the whole system.

*From the Journal of Commerce.*

We think it is but just to Dr. Von Eisenberg to call public attention to him. There are hundreds in the community suffering from catarrh, if not actually praying for death, who are ready to accept of anything that promises to relieve them from their distresses. To such we would say, trifle not with inexperienced men, but consult, without unnecessary delay, Dr. Von Eisenberg, who, at least, has the honesty to assure his patients whether it is in his power to make them whole or not.

HEARING RESTORED BY A SINGLE APPLICATION OF THE ÆSTHETICO-NEURALGICON.

READ! READ!

NEW-YORK, May 4, 1865.

I have been induced, by the great number of certificates continually published in favor of Dr. Von Eisenberg's skill, to apply to him for advice concerning my deafness of many years' standing. I placed myself under his care, and to my utmost delight he made me hear perfectly well by a single painless application of Dr. Von Eisenberg's "Æsthetico-Neuralgicon." I have great pleasure in being able to state that his skill in restoring hearing surpasses anything I ever saw or heard of. His attention to the patient is highly commendable.

JOHN WAKELY, No. 104 Monroe-st.

MIRACULOUS CURE OF THE CHRONIC CATARRH, ASSUMING THE FORM OF CONSUMPTION.

I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, and a weight over my eyes, which were weak, watery, and very painful. My nostrils were continually obstructed with a pouring of fluid. I had frequent sneezing, hoarseness of my voice, generally attended with spitting of blood. I have been treated by many eminent physicians without success. Recently the Catarrh became so offensive that I could not go into society. Hearing of DR. VON EISENBERG'S new invention, I thought I would apply to him as a last resource. Having been satisfied with his diagnosis, I submitted to his treatment, and have every reason to be abundantly satisfied, as I am completely cured, and my health so much renovated that I feel better than I felt for the last fifteen years. It is a blessing that experience gives the Doctor the power to restore such a shattered constitution to perfect vigor. I now feel very happy to be able to give this testimonial in favor of Dr. Von Eisenberg's inimitable skill.

RESTORATION OF SIGHT.

I, Lawrence Grenna, No. 186 East 36th-st., New-York City, have been suffering from blindness of the left eye for a considerable period. The eye was continually in a state of great inflammation, from which the good eye became affected, and, indeed, my general health was greatly injured by it. Hearing of Dr. Von Eisenberg's great reputation, and as every one said mine was a hopeless case, I called on the Doctor, who, after examining me, undertook my case, and within a fortnight I found myself almost completely cured. It is now a month since I placed myself under Dr. Von Eisenberg's treatment, and I am happy to be able to state that the inflammation is entirely gone, so that I see perfectly with both eyes, added to which I am in good health—a blessing I have not enjoyed since I was blind. I do conscientiously and gratefully swear to the above statement, in a court of justice, at the City Hall o. the City of New-York, the 10th day of October, 1864.

LAWRENCE GRENNA.

Sworn before me this 10th day of October, 1864.

C. GODFREY GUNTHER, Mayor.

Thousands of testimonials similar to the above can be seen at Dr VON EISENBERG'S office,

CANADIAN OIL REGION,
BOTHWELL, CANADA WEST.
PUBLIC SALE OF ABOUT 1,500 ACRES
OF
CHOICE OIL LANDS, WITH
OIL WELLS.
The BOTHWELL LAND AND PETROLEUM COMPANY, commonly called the "Scotch Company," owning the town of Bothwell and 6,000 acres of land around it, will offer for sale, by auction, 1,500 acres of their choicest territory, with the view of attracting oil operators to the fuller development of this important oil region.
The lands to be sold immediately adjoin the Pepper or Boston, Lick, Colville, Victoria, and all the other yielding oil wells in the district. They embrace the well-known Chambers and Thames yielding wells, also others which are now being put down. They are all within two miles of the railway station of town of Bothwell, and front on the River Thames and the Longwood road. They comprise Lots Nos. 13, 14, 15, River Range; Lots Nos. 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, Longwood Road Range; and Lot No. 12 on the Tenth Concession. All in the Township of Zone, County of Kent.
Bothwell is a rapidly increasing town, and has hotels, machine and blacksmiths' shops, and all conveniences for supplying the wants of operators. It is a principal station on the Great Western or Canada Railway, which runs from Detroit to Niagara Falls, and is reached in 24 hours from New-York, and 14 hours from Chicago by express trains twice each way daily.
The lands will be put up for sale in lots of from 5 to 25 acres, a road allowance being provided to each lot.
A deposit of 20 per cent. will be required on purchase, 30 per cent. within one month, and the balance in four quarterly installments of 12½ per cent. each. For the deposit of 20 per cent., American Government or first-class State or railway bonds at their current rate of exchange will be taken as security instead of cash, until the buyers have time to convert. This will render it unnecessary for buyers from the United States to be provided with Canadian funds until after they actually purchase.
The sale will take place at BOTHWELL, on
THURSDAY, 23D NOVEMBER,
at 11 o'clock, forenoon.
Intending purchasers are invited to inspect the lands. All further particulars can be had, and plans of the property as subdivided for sale can be seen, at the office of the company, Bothwell. JOHN WALKER,
General Manager.

THE HOSPITAL SHIP FLORENCE NIGHTINGALE SENT DOWN THE BAY.

The Quarantine Commissioners, Messrs. CYRUS CURTIS and Dr. WM. A. COBB, of Brooklyn, and Dr. WM. C. ANDERSON, of Staten Island, met on Friday afternoon and under their direction the hospital ship *Florence Nightingale* was prepared for the reception of the sick from the *Atalanta*. Stoves were carried on board and a quantity of ice and other comforts were provided for the patients. The *Florence Nightingale* is well adapted for the purpose to which she is allotted. Her upper deck, which forms the sick ward, is well lighted, having many windows which afford adequate light and ventilation. She left her moorings at the foot of Van Brunt-street, Brooklyn, on Saturday, for the Lower Quarantine, and the transfer of the sick to her comfortable quarters was made. The latest reports from the *Atalanta* bring information of no new cases.

DETENTION OF THE STEAMSHIP EUROPE.

The steamship *Europe*, of the French line, arrived on Friday evening, and was detained at the Lower Quarantine for observation.

Dr. WALSER, the physician in charge of Lower Quarantine, writes concerning her: "All are well or board; affidavits have been furnished that no cases of cholera were known in Havre previous to the steamer sailing. She was in Brest but three hours. That port was perfectly healthy, according to the statement of the Purser of the ship. The greater part of the passengers coming from Paris, where cholera prevails, but not as an epidemic or to any extent, according to the statement of Bishop LYNCH of Charleston. The greater part of the baggage coming from Paris in the hold has not been opened during the voyage. All on board were perfectly well during the voyage.

The passengers claim that a number of their acquaintances from Paris came by way of Liverpool, and obtain pratique at once."

### Latest Reports of the Physician in Charge of the Hospital Ship.

STEAMSHIP ATALANTA, Nov. 4, 1865.

*Messrs. Howland and Aspinwall:*

DEAR SIRS: The first impression of the condition of the *Atalanta* was rather unfavorable, but a closer examination assures me that all was done for the unfortunate passengers that circumstances admitted.

No deaths occurred since yesterday. Fifteen cases of cholera are to be transferred to the hospital ship, as soon as she arrives and the weather admits of removal.

The disease is of a mild type. The present unfavorable weather may unpleasantly effect the character of the disease.

Respectfully, your obedient servant,

(Signed,) THEO. WALSER.

Dr. WALSER writes to the Associated Press on Saturday evening that several new cases have broken out since his last report, but one of which has died. He states that the disease is still confined to the steerage passengers, and that not a case has occurred either among the first or second cabin passengers or crew, of the ship.

The following are the names of the new cases, and the date at which they were attacked:

Nov. 2, Theresa Diethold, 24, cholera; Jacob Steenmann, 19, cholera; Wm. Bacher, 32, (died Nov. 4;) Susan Mayer, 46; Walter Houston, 19. Nov. 3, Casper Rost, 16; Heinrich Schmidt, 11. Nov. 4, Gottlieb Sandler, 34; Dietrich Lentenbacher, 2½; Catharina Hen, 29; Catherina Burchair 20.

### The Steamship Europe.

A PROTEST FROM THE PASSENGERS.

STEAMSHIP EUROPE, }
NEW-YORK HARBOR, Nov. 4, 1865. }

The undersigned, passengers in the steamship *Europe*, from Havre to New-York, feeling aggrieved at their detention at Quarantine without cause, respectfully present the following statement:

The ship left a perfectly healthy port on the 20th of October last, with 299 passengers, and, including the officers and crew, numbering more than 400 souls, all in good health. The voyage has been one of unusually rough weather, with a succession of gales and storms for ten successive days, shipping heavy seas, causing all the portholes to be closed during the passage, rendering the ship wet, the ventilation bad, and the air of the state rooms and cabins consequently close and foul, producing very general sea-sickness among the passengers; that notwithstanding all these untoward circumstances, coupled with the great anxiety and even terror attendant upon the violent gales the ship encountered, there has not been from the time the ship left port to the present moment the first symptom of cholera, diarrhœa, or any other disease whatever on board. With the exception of much sea-sickness, there has been better general health during the voyage than the most experienced voyagers have known. Evidence under oath by a citizen of Havre, and others, certifying to the perfect healthfulness of the port of departure, has been presented to the health officer of the port, and by him to the Board of Health of the city of New-York, accompanied with every possible assurance of the present health of all on board, and a clean bill of health indorsed by our Consul at Havre; yet the ship is needlessly detained, subjecting the passengers to great anxiety and discomfort, to great loss from delay, and to the danger of breaking out of disease among so great a number so closely confined. We submit that these facts, together with the further fact that sixteen days have elapsed since the sailing of the ship—a period of time far beyond that usually assigned for the development of any contageous or epidemic disease—makes the detention of the ship wholly unnecessary and unjustifiable. The *Java* was not so detained.

### THE ST. JOHN EXPLOSION.

**Investigation by the Local Board of Inspectors—Saturday's Proceedings.**

The investigation into the cause of the explosion of the *St. John* boiler was continued on Saturday, before Inspectors WEEKS & HOPPER, of the Local Board of Engineers. The testimony of the boiler-makers and engineers examined does not show entire unanimity in opinion as to the proper construction of the boilers. One manufacturer puts thirty pounds to the square inch as the maximum pressure which could safely be carried, while the safety-valve of the exploded boiler would not blow off under 33 pounds. Another thinks the boilers insufficiently braced, and the iron too thin. The inspectors will probably continue the investigation two or three days more. The testimony on Saturday was substantially as follows:

*Edward Curtis* sworn: is one of the firm of Curtis & Shafter, Franklin-street, N. Y.; has been an engineer since 1848; examined the *St. John's* boilers, and thinks them as well braced as usual, and the iron of proper thickness; believes the explosion caused by greater pressure of steam than reported; considers forty pounds of steam safe; examined very particularly for injuries by chipping and caulking, but found none; the reputation of Cobanks & Theall as boilermakers is good; saw no imperfection in the flange, but think that part gave way last; the proper way to bend the sheets of iron is transversely of the boiler, but we build boilers in a similar way to the *St. John's*, and other builders generally do the same; in regard to bracing by running rods across the boiler, we have practiced it in two instances only; such bracing would increase the strength of the boiler; sheets of iron bent longitudinally are twenty per cent. stronger than when bent transversely; previous to this accident thought sheets placed transversely safe; considered the *St. John's* boilers safe for forty pounds of steam; was formerly on the steamer *New World*; it is customary to shut the engine off and commence hauling fires, when coming down the river, off Hoboken Point; steam is generally run up before hauling fires; safety-valves work easier sometimes than at others; cold water should not be admitted into boilers till an hour after the hot water is out; don't think the pulsation caused by taking steam into the cylinder would do any damage in a new boiler; there is a greater strain on a boiler when the engine is in motion than when at rest, from pulsation caused by taking steam into the cylindar.

*Charles T. Betts*, No. 59 Brett-street, Jersey City, sworn: Is a boilermaker and superintendent of iron ship building; has been in boilermaking business for the last thirty-two years; for the last four years been superintendent of iron ship manufacturing; has examined the iron of the *St. John's* boiler and believe it to be good; a proof of its goodness is in its not splitting through the rivet holes; the iron is of proper thickness for the size of the boiler; it is well braced at the part where the fracture took place; the bracing being so strong contiguous to that part caused the pulsation to weaken the part more than at other spots; agrees with the witness Curtis in regard to bending the sheets, but would not have hesitated to have put them lengthwise before this accident; thinks the weight of the steam chimney may have assisted in causing the fracture from its producing vibration; considers the boilers safe the first year to carry thirty-five pounds of steam; the *shelly* place in the iron could not be detected before being put on; the workmanship on the boilers was very superior.

*Palmer Cravey* sworn: resides at No. 313 West Twenty-fourth-street; has been an engineer since 1843; examined the boilers of the *St. Johns* shortly after the explosion; the iron in them was sufficiently thick; the boilers were properly braced; saw no flaw in the iron that could cause the rupture; unable to give a reason for it; would have felt safe with a pressure of thirty-five to forty pounds pressure on; the explosion might have happened to any engineer; the water was over the tubes when it occurred; saw the boilers frequently during their construction; the iron in them is of proper thickness, and they are well and sufficiently braced; the practice of North River steamer engineers is to commence hauling fires at a point about opposite Thirteenth-street, and at the same time throttle the engine; if the pressure of steam is moderate they run it up a little before they haul fires; it is not uncommon for safety valves to get jammed and require greater pressure to raise them and blow off than they are loaded for. The best way to admit cold water to boilers is at the bottom; *crotoning* boilers injures them.

The investigation was here adjourned to this morning.

### BILLIARDS.

**One of the Best Contests on Record—The Second Carme-Kavanagh Match.**

Undoubtedly one of the most brilliant billiard matches which ever occurred on this continent came off at Irving Hall, in this city, on Saturday evening last. It was the second of a series of three games between DUDLEY KAVANAGH, who for nearly two years was champion of America, and PIERRE CARME, a renowned expert from France. The first game, which was the three-ball carom game, was played in the hall adjoining the Fifth-avenue Hotel on the 5th of last month, and on that occasion CARME was successful by 26 points in a score of 250 up. Immediately after this CARME commenced practice for the four-ball game, which was entirely new and very perplexing to him; yet in a day or two, while he was progressing finely, he was seized with a pulmonary attack, from the effects of which he has scarcely recovered at the present time. As this completely interrupted his training, and as it was deemed certain no postponement would be allowed, he had almost determined to forfeit; but a few days since, being enabled to resume practicing, his progress was so rapid that his friends advised him to play the match. Yet his full determination to do so was only arrived at on Friday evening.

Notwithstanding the brief announcement and the rain, every available place in Irving Hall was occupied on Saturday night, hundreds surrounding the doors before they were open, and as the contestants entered, somewhat before the time announced to commence the game, they were received with the plaudits of their friends. At 8 o'clock Mr. MICHAEL PHELAN arose and stated the terms of the game, that JOHN MCDEVITT, for CARME, and Capt. JAMES P. BOYLE, for KAVANAGH, would act as umpires, and that R. T. RYALL was selected as referee. As five minutes were allowed for investments, a party loudly offered $500 on KAVANAGH, and for some moments the wagering was very warm, but mostly at the rate of $100 to $70 on KAVANAGH. CARME won the lead, and for the first half dozen innings both parties played with great caution, KAVANAGH taking the lead and gradually increasing the gap. In his third innings CARME had the balls in fine position, and appearances indicated a large run; after scoring 14 he effected the massee in brilliant style; this was claimed foul by BOYLE, and allowed by RYALL. CARME was much dispirited by this decision, and reseated himself with great reluctance. Those who best know his disposition feel assured that his being unjustly deprived of this count, in this early stage of the game, was at least equal to the loss of 200 points to CARME. Explanations in regard to the progress of a game of billiards are unnecessary when the score is published, so we refer to it for details. The execution of both players at times surpassed the expectations of their most sanguine friends, and without doubt the game was one of the most scientific and brilliant ever played in public. We regret to allude to the decisions against CARME, which were numerous, while even KAVANAGH'S last large run (107) was commenced with a foul shot, which was not even claimed on behalf of CARME.

### BROOKLYN NEWS.

LAYING THE FOUNDATION STONE OF A ROMAN CATHOLIC ORPHAN ASYLUM IN BROOKLYN.—Yesterday, shortly after 12 o'clock, noon, various temperance and other societies assembled in the neighborhood of Clinton and Atlantic streets, for the purpose of marching in procession to take part in the ceremony of laying the foundation stone for the Male Roman Catholic Orphan Asylum of Brooklyn. Extensive preparations had been making for some time past by a convention of delegates from the societies, which were brought to a close in the latter part of the week by the selection of JOHN WALL, Esq., as Grand Marshal, who issued a programme for the guidance of those wishing to take part in the procession. The societies represented were: St. ANN'S T. A. B., St. James' R. C. B. Society, Young Men's F. M. T. A. B., No. 1, and St. Paul's, No. 2, Father Mathew, No. 5, A. O. Hibernians, Assumption, Shamrock, Laborers' Union, and St. Patrick's Societies. The line of march was from Atlantic, through Clinton, to Joralemon to Fulton, Concord to Jay street, to Myrtle-avenue, to Court-street, Atlantic-avenue, New-York-avenue, Wyckoff-street, to Albany-avenue. When the societies arrived at the site of the building they formed in front and on the sides, and with the crowd already congregated could not have numbered much less than twenty thousand persons.

The building will be located on Albany-avenue, in the Ninth Ward of Brooklyn. The lot on which it is to be erected is 700 feet long by 255 feet wide, on a beautifully elevated and airy position. The building is to be of blue stone, trimmed with brown stone, 200 feet square, with a court-yard in the centre. It will be four stories high, with attic and cellar. It is to be of the French style of architecture, after the plan of a similar asylum in Paris, and will contain all the necessary accommodations and improvements suited to an institution devoted to such purposes. When completed the cost will be about $150,000. The corner stone is of fine grey granite, marked with a cross. On the under side is a mortice about one foot long, nine inches wide and ten inches deep, in which were deposited a tin box and glass bottle hermetically closed, in which were deposited a sheet of parchment on which is engrossed the date of the laying of the stone, the names of the Bishop of Brooklyn and the Archbishop of New-York, the reigning Pope, the President of the United States, the Governor of the State of New-York and the Mayor of Brooklyn, the names of the Board of Directors and Committee of the Asylum Society, the name of the architect, (Mr. KEELEY,) the constitution and by-laws of the Roman Catholic Orphan Asylum Society of Brooklyn, the specie and fractional currency of the United States, copies of different newspapers, manual of the Common Council of Brooklyn, &c., &c. Bishop LOUGHLIN, of Brooklyn, attended by a number of priests, in full canonicals, performed the appropriate ceremonies. The Right Reverend Bishop then addressed the assembly. A large collection was taken up, and the vast assemblage took up their line of march for home to the cheering strains of several bands of music.

THE GLASS BALLOT BOXES.—Arrangements have been made by the city authorities, whereby they will be enabled to retain the glass ballot boxes recently seized by the Sheriff, until after the election. This will answer all necessary purposes.

POCKET PICKED.—Col. W. B. BOOTH had his pocket picked, at the Republican meeting in the Academy of Music, on Friday night, of $78. The thief had ripped the pocket open with a knife.

### The November Term of the Law Courts.

To-day being the first Monday of the month, all the City, State and Federal Courts will open for the transaction of business. Owing to the fact that Tuesday, (to-morrow,) is election day, and all courts are, by the law of this State, forbidden to hold any sessions on that day, it is not probable that there will be much done until Wednesday. All jurors summoned, must, however, be in attendance on the first day of the term, at the appointed hour, or run the risk of having to pay the fine of $25, which the law prescribes and directs the courts to impose as a penalty for non-attendance.

While speaking upon this point, we may remark that some of the members of the Bench have desired our reporter to call the attention of all liable to jury duty to the fact that hereafter the laws relating to non-attendance will be rigidly enforced, and that the ordinary excuse of "business," or "it is our busy season now," will not be received. In one of our courts, the last term, out of three panels of one hundred and four each, but eleven of those summoned, could be obtained—not enough to try a cause; hence the court was compelled to adjourn. The Judge remarked that some action ought to be immediately taken by our Legislature toward reforming the laws on the subject of jurors, and especially as to the City of New-York. At present it was almost impossible to get a wealthy man, or a man doing a thriving business, to sit in a jury-box. They would much rather pay the small sum of $25. Hence, the burden which all good citizens ought to be willing to share was thrown upon the poor laboring man, who could illy afford to lose two, and sometimes four weeks out of every year.

The calendars of all the courts, civil and criminal, are unusually heavy this month. Among the causes which will probably be tried in November, are some of much public interest, both on account of the parties litigant and the questions of law and fact involved. In the Superior Court, the operatic libel suit of Maretzek *vs.* The Editors of the *Sunday Mercury*, and the somewhat notorious divorce suit of Strong *vs.* Strong, will, no doubt, come on. There is also the suit of the New-Orleans Bankers *vs.* Gen. Butler, a libel suit against the Editor of the N. Y. *Tribune* and some peculiarly interesting insurance cases to be tried. In the Federal Courts there are a large number of counterfeiters of currency, and greenbacks, awaiting their trial, and in the Court of General Sessions about ten persons to be tried for the high crime of murder; and between two and three hundred who are charged with offences of a lower grade.

As will be seen from the arrangement of the Courts which we give below, the month of November promises to be an exceedingly busy one for the Bench, the Bar, jurors, reporters and litigants.

The Supreme Court, General Term, will be held by Presiding Justice Ingraham, and Leonard and Barnard, J. J. Supreme Court, Special Term, by Sutherland, J. Justice Clerke will sit at Chambers. The Circuits will be held by Justices from the country; Part I. by Justice Peckham, of Albany, and Part II. by Justice Smith. The latter court will be held at No. 73 Duane-street.

There will be a General Term of the Superior Court held by Justices Barbour, Monell and McCunn. The Special Term by Chief-Justice Robertson; Trial Term, Part I., by Justice Garvin, and Part II. by Justice Moncrief.

In the Common Pleas, Part I will be held by Judge Daly, Part II by Judge Brady, and Judge Cardoza will sit at Chambers and Special Term.

In the Federal Courts, Judge Shipman will hold the Circuit for the trial of criminals, and Judges Benedict and Betts will preside in the District Court.

City Judge Russel will hold the Court of General Sessions.

Marine Court—Part I will be held by Judge Alker, Part II by Judge Hearne, and Judge Dittenhoefer will sit at Special Term.
